

## RX1290

### Multi-format SD/HD Integrated Receiver Decoder

Video professionals, broadcasters and news gathering organizations face increasing demands to shoot and deliver video in multiple formats and standards whilst optimizing their operational costs. As television moves from MPEG-2 to MPEG-4 AVC, from standard definition (SD) to high definition (HD), TANDBERG Television's RX1290 is uniquely positioned to address these multi-format, multi-standard needs by combining MPEG-2, MPEG-4 AVC, SD and HD with the capability to decode both 4:2:0 and 4:2:2 video. The RX1290 has been hailed by the broadcasting industry as a truly ground-breaking product, at its launch winning the Cable & Satellite International Product of the Year Award for Best Contribution and Distribution solution at the 2006 International Broadcasting Convention (IBC).

The RX1290's capability to decode all video formats, coupled with a wide choice of input options for all transmission mediums makes the receiver the smart choice for professionals seeking a future-proof solution. This unique flexibility makes the RX1290 the only full MPEG-4 AVC HD solution for mobile applications. The RX1290 provides significant benefits for organizations who wish to migrate their operations from MPEG-2 SD to MPEG-4 AVC HD. The multi-format capability of the RX1290 allows a significant cost reduction to the traditional migration path of operating separate devices for SD and HD. With the RX1290, customers can upgrade the unit with licenses rather than migrating via a hardware upgrade path thereby giving maximum flexibility.

### PRODUCT OVERVIEW

#### Increased Distribution Capacity and Efficiency

The RX1290 multi-format professional receiver, in combination with the TANDBERG Television's MPEG-4 AVC encoders, enables increased distribution capacity due to their bandwidth reduction capabilities and increased encoding/decoding efficiencies. For satellite applications, the RX1290 can include a DVB-S2 demodulator, allowing an additional 30% increase in channel capacity.

#### The Industry's most Versatile Decoder - a "Safe Choice" for the Future

The RX1290 decodes all major video formats in use today in both SD and HD resolutions, providing complete flexibility for daily operations. The professional decoder is a "safe choice" for companies that are beginning to transit MPEG-4 AVC and HD but continue to work in MPEG-2 and SD. With the RX1290 they can migrate at their own pace.

#### Simplified Control and Lower Cost of Operations

Organizations with large populations of RX1290 receivers or other TANDBERG Television receivers can simplify control by integrating with TANDBERG Television's Director control system. Director provides remote, over-air, single-view control from a central location, reducing the need for on-site local operators.

#### Wide Range of Inputs and Outputs for Enhanced Connectivity

The RX1290 can be integrated into a variety of system architectures, including ASI, IP and RF delivery systems through a choice of input cards. The receiver offers a multitude of audio and video outputs for high quality delivery to all major onward networks.
