Struck Keith Pyeatt,2011-08 Body Language and Emotional Intelligence Rajiv Kumar,2016-05-25

Body language and emotional intelligence has two parts The part one sheds light on the body language Body language is not only about the way one sits stands or walks as many people assume it to be so It involves tremendous intelligence of how the body functions in different situations revealing the emotional states of people The knowledge of it provides benefits almost everywhere in interviews at workplaces in sales and marketing in businesses in parties in relationships and so on The part two sheds light on the emotional intelligence Emotional intelligence also helps amplify the body language skills and vice versa But I am in this part mainly talking about how our illogical connections attitude of accepting things without looking into them and unawareness of emotions affect our decisions and life about how we are driven by our thinking patterns and emotions and why it becomes important for us to understand them This book intends to help the reader think clearly and communicate effectively
