The Wearing of the Green Mike Cronin,Daryl Adair,2004-11-23 The full history of St Patrick s day is captured here for the first time in The Wearing of the Green Illustrated with photos the book spans the medieval origins steeped in folklore and myth through its turbulent and troubled times when it acted as fuel for fierce political argument and tells the fascinating story of how the celebration of 17th March was transformed from a stuffy dinner for Ireland s elite to one of the world s most public festivals Looking at more general Irish traditions and Irish communities throughout the world Mike Cronin and Daryl Adair follow the history of this widely celebrated event examining how the day has been exploited both politically and commercially and they explore the shared heritage of the Irish through the development of this unique patriotic holiday Highly informative for students of history cultural studies and sociology and an absolute delight for anyone interested in the fascinating and unique culture of Ireland

Tourism and Colonization in Indochina (1898-1939) Aline Demay,2015-01-12 Direct flights to former imperial capitals continued visits to the same tourist sites and the emergence of tours dedicated to the imperial past all pose the question of the heritage of tourism in the former colonies Lesser known as a field of research the study of tourism in colonial situations has begun to impose itself over the past decade as an important issue Interestingly in the colonial era tourism was one element of the policies used by the colonial power to highlight its colony The use of tourist activities for political ends was first confirmed in an October 2 1922 circular composed by the Minister of the Colonies Albert Sarraut This circular required all French overseas territories to organize and develop the tourism sector because along with its economic benefits the tourist of today can be the colonist of tomorrow This theme along with knowledge related more specifically to tourism such as the creation of sites and tours and the background of tourists also contributes to sanitary environmental and planning questions as well as issues concerning the construction of national sentiment How did tourism develop in a territory during the period of colonial expansion How are tourism and colonization related What connections can be found between the two Using archives and tourist publications this book marks an unprecedented work of research into the enactment of tourism in Indochina It places the establishment of tourism in this former French colony along with the tourism policies of Metropolitan France and the attempts to reproduce the organizations established in the Dutch East Indies and in Japan The book which focuses on events in the period from the turn of the

twentieth century to the eve of the Second World War analyses the transfer of European tourism practices to Indochina their establishment their integration with policies of valorisation in the 1920s their spatial consequences and the communication established by the state to promote Indochina as a tourist destination for both Indochinese and foreign tourists Beaches, Ruins, Resorts Waleed Hazbun,2008 Despite being viewed as a dangerous region to visit leisure travel across the Middle East has thrived even in the post 9 11 era In Beaches Ruins Resorts Waleed Hazbun investigates this overlooked industry to show how tourism is shaping the economic development and international relations of the region in dramatic ways Hazbun tells the new and surprising story of how the draw of glittering beaches luxury hotels and resorts and sightseeing at ancient ruins impact the Arab world promoting both economic globalization and political authoritarianism **Making the World Safe for Tourism** Patricia Goldstone,2001-01-01 A study of the social and political impacts of tourism It explores how and why tourism aligned itself with political power how it became embedded within non tourist institutions like the World Bank and how since World War II it has become an instrument of international development policy Innovation and Creativity in Tourism, Business and Social Sciences Vicky Katsoni,Carlos Costa,2025-06-03 This book is the first volume of the proceedings of the 11th International Conference of the International Association of Cultural and Digital Tourism IACuDiT Focusing on Innovation and Creativity in Tourism Business and Social Sciences the conference was held from September 3 to 5 2024 in Naxos Greece The book showcases the latest research on tourism business technology and the social sciences and presents a critical academic discourse on ICT adoption in the social sciences regional development sustainability and tourism experience smart and sustainable practices innovations in museum interpretation and collections management emerging and disruptive technologies gaming gamification and augmented reality and other topical aspects in business and the social sciences The book discusses these digital transformation processes from various standpoints including its effect on the social sciences combined with specific forms of tourism The impact of digitalization encourages the emergence of new digital products and services based on the principle of flexibility The book focuses on the knowledge economy and the smart destinations concepts and highlights new modes of tourism management and development while further chapters address emerging technologies such as the Internet of Things AI big data and robotics in a range of tourism practices **Tourism in Northern Ireland and its economic impact and benefits** Great Britain: Parliament: House of Commons: Northern Ireland Affairs Committee,2007-03-15 The Committee s report examines the nature of tourism in Northern Ireland its impact on and importance for the overall economy and the effectiveness of measures taken by Government and other relevant agencies to develop promote and support the marketing of Northern Ireland as a tourist destination The Committee s recommendations are addressed to the Northern Ireland Office which took back responsibility for tourism in Northern Ireland when the power sharing executive was suspended in October 2002 but if a power sharing executive is re established then responsibility for tourism will revert to the restored Executive and accordingly responsibility for scrutiny of this policy area would revert to the

Committees of a restored Assembly The Committee's report makes 27 recommendations to help Northern Ireland maximise its tourist potential and concludes that if government recognises the enormous economic impact of tourism and if private enterprise in co-operation with statutory bodies can develop this recognition into a coherent strategy there is no reason why the success of tourism in the Republic of Ireland should not be replicated in Northern Ireland to the advantage of the whole island of Ireland and with Northern Ireland itself enjoying an equivalent status to Scotland and Wales as a UK tourist destination

Mark Twain's Homes and Literary Tourism Hilary Iris Lowe, 2012-07-20 A century after Samuel Clemens's death Mark Twain thrives One way fans still celebrate the first true American writer and his work is by visiting any number of Mark Twain destinations They believe they can learn something unique by visiting the places where he lived Mark Twain's Homes and Literary Tourism untangles the complicated ways that Clemens's houses now museums have come to tell the stories that they do about Twain and in the process reminds us that the sites themselves are the products of multiple agendas and in some cases unpleasant histories Hilary Iris Lowe leads us through four Twain homes beginning at the beginning Florida Missouri where Clemens was born Today the site is simply a concrete pedestal missing its bust a plaque and an otherwise empty field Though the original cabin where he was born likely no longer exists Lowe treats us to an overview of the history of the area and the state park challenged with somehow marking this site Next we travel with Lowe to Hannibal Missouri Clemens's childhood home which he saw become a tourist destination in his own lifetime Today mannequins remind visitors of the man that the boy who lived there became and the literature that grew out of his experiences in the house and little town on the Mississippi Hartford Connecticut boasts one of Clemens's only surviving adulthood homes the house where he spent his most productive years Lowe describes the house's construction its sale when the high cost of living led the family to seek residence abroad and its transformation into the museum Lastly we travel to Elmira New York where Clemens spent many summers with his family at Quarry Farm His study is the only room at this destination open to the public and yet tourists follow in the footsteps of literary pilgrim Rudyard Kipling to see this small space Literary historic sites pin their authority on the promise of exclusive insight into authors and texts through firsthand experience As tempting as it is to accept the authenticity of Clemens's homes Mark Twain's Homes and Literary Tourism argues that house museums are not reliable critical texts but are instead carefully constructed spaces designed to satisfy visitors This volume shows us how these houses portrayals of Clemens change frequently to accommodate and shape our own expectations of the author and his work

Tourism, Magic and Modernity

David Picard,2011-09-01 Drawing from extended fieldwork in La Reunion in the Indian Ocean the author suggests an innovative re reading of different concepts of magic that emerge in the global cultural economics of tourism Following the making and unmaking of the tropical island tourism destination of La Reunion he demonstrates how destinations are transformed into magical pleasure gardens in which human life is cultivated for tourist consumption Like a gardener would cultivate flowers local development policy nature conservation and museum initiatives dramatise local social life so as to evoke modernist paradigms of time beauty and nature Islanders who live in this human garden are thus placed in the ambivalent role of human flowers embodying ideas of authenticity and biblical innocence but also of history and social life in perpetual creolisation
