Americans in more than two hundred cities and towns mobilized to chase an implausible dream The newly created United Nations needed a meeting place a central place for global diplomacy a Capital of the World But what would it look like and where would it be Without invitation civic boosters in every region of the United States leapt at the prospect of transforming their hometowns into the Capital of the World The idea stirred in big cities Chicago San Francisco St Louis New Orleans Denver and more It fired imaginations in the Black Hills of South Dakota and in small towns from coast to coast Meanwhile within the United Nations the search for a headquarters site became a debacle that threatened to undermine the organization in its earliest days At times it seemed the world s diplomats could agree on only one thing under no circumstances did they want the United Nations to be based in New York And for its part New York worked mightily just to stay in the race it would eventually win With a sweeping view of the United States place in the world at the end of World War II Capital of the World tells the dramatic surprising and at times comic story of hometown promoters in pursuit of an extraordinary prize and the diplomats who struggled with the balance of power at a pivotal moment in history

proved a turning point in Haitian U S relations as Washington s assumption of regional hegemony changed the balance of power for a Haiti long committed to a multilateralist diplomacy In the twentieth century tensions between traditional and reformist elements in Haitian society erupted in a crisis that brought U S intervention and long term military occupation Plummer examines the consequences of this intervention as they were incorporated into the later interactions between the United States and Haiti and shows how these troubled relations contributed to the rise of the repressive Duvalier regime The recent fall of that regime Plummer suggests now presents the psychological moment to which Elihu Root referred so many years ago
