Sustainable Ecotourism in Central America Andrew P. Miller, 2016-09-30 Sustainable Ecotourism in Central America Comparative Advantage in a Globalized World examines the factors necessary for Nicaragua Panama and Belize to implement an economic development model based on the growth of ecotourism and foreign direct investment In order to determine what factors are necessary to implement this model this book analyzes the state of ecotourism development in Costa Rica and the lessons that the Costa Rican case can provide for other Central American states It also assesses the effects of globalization and the increasing implementation of free market policies on the development of ecotourism The book ultimately argues that globalization and neoliberalism have made it more likely that states will be able to adopt a development model based on ecotourism and foreign direct investment due to the manner in

which neoliberalism and globalization help to create ever increasing economic interconnectedness and openness While globalization has served to shrink the world and make it easier for people to travel the economic openness of neoliberalism has facilitated global flows of both tourists and international capital into every corner of the world Understanding the way globalization and neoliberalism interact with ecotourism development and foreign direct investment is the key to formulating policy recommendations for states in Central America to jumpstart their economic development **Festival & Special**

Griffith,2021-10-12 It has been suggested that if

CARICOM nations wish to accelerate their development they should embrace laissez faire economic policies However laissez faire economic policies have reinforced the very economic and social structures that have contributed to their low level of development furthermore laissez faire economic policies ignore social attitudes that can greatly influence a nation s development Moreover low skilled labor intensive production processes which once propelled growth in CARICOM nations will no longer perform a similar role because production processes are becoming more and more knowledge skills intensive and nations wishing to attract foreign manufacturing investment or high tech services may not be able to do so without an adequate pool of the necessary knowledge skills CARICOM nations must therefore try to accumulate a pool of knowledge skills that can help their economies become internationally competitive Bounded Rational Choice Behaviour Soora Rasouli,Harry Timmermans,2015-01-30 The book is an attempt to stimulate development in travel behaviour analysis and provide a basic source of reference to the transportation research community The aim of the book is to give centre stage to some recent innovative approaches to models of bounded rationality both under conditions of certainty and uncertainty

Urban Displacement and Trade in a Senegalese Market Gunvor Jónsson,2024-03-07 The Malian market at the railway terminus in Dakar was bulldozed in 2009 and following privatisation of the railway passenger services in Senegal soon ceased altogether The consequences were felt especially by women traders who had travelled the line since its inauguration making the terminus in Dakar the centre of a thriving network of traders and migrants To examine the fates of those whose livelihoods were destroyed or disrupted Gunvor J nsson spent a year with the women evicted from the terminus Urban Displacement and Trade in a Senegalese Market explores what happens at the end of urban displacement when it is

all over so to speak when the dust has settled and people find themselves scattered in sometimes unfamiliar surroundings trying to pick up the pieces and create something meaningful This book argues that rupture and ensuing displacement do not produce a clean slate where identities networks and histories must be produced from scratch Traders and their markets do not simply vanish into thin air when they are evicted The book examines not only what is lost but what emerges when a dense node such as the terminus is dissolved and fragmented The ethnography of the traders reveals that the aftermath of eviction in cities may lead to diasporic forms of consciousness and identity formations Displacement whether on a local or global scale demands difficult adjustments and people s capacities to adapt to new circumstances and environments vary This book uncovers some of these different capacities and variations in traders reactions to displacement Praise for Urban Displacement and Trade in a Senegalese Market J nsson s book is a masterful study of the aftermath of displacement in a major African city Through deep ethnographic engagement the book shows how displacement is about more than leaving a place it is also about how people rebuild livelihoods and how the space left behind continues to haunt their imagination of a meaningful life H l ne Neveu Kringelbach UCL This book is an inspiring tribute to the Malian women traders of Senegal Emptied out from their old market stalls by a vainglorious development scheme they bravely regrouped to recover their livelihoods and protect their families Gunvor J nsson challenges the idea that displacement only involves refugees Instead she creatively marries studies of migration and urbanization providing fresh insights to both fields Robin Cohen University of Oxford

Indigenous Celebrity Jennifer Adese, Robert Alexander Innes, 2021-04-09 Indigenous Celebrity speaks to the possibilities challenges and consequences of

popular forms of recognition critically recasting the lens through which we understand Indigenous people's entanglements with celebrity. It presents a wide range of essays that explore the theoretical, material, social, cultural, and political impacts of celebrity on and for Indigenous people. It questions and critiques the whitestream concept of celebrity and the very juxtaposition of Indigenous and celebrity and casts a critical lens on celebrity culture's impact on Indigenous people. Indigenous people who willingly engage with celebrity culture or are drawn up into it enter into a complex terrain of social relations informed by layered dimensions of colonialism, racism, sexism, homophobia, transphobia, and classism. Yet this reductive framing of celebrity does not account for the ways that Indigenous people's own worldviews inform Indigenous engagement with celebrity culture or rather popular social and cultural forms of recognition. Indigenous Celebrity reorients conversations on Indigenous celebrity towards understanding how Indigenous people draw from nation-specific processes of respect and recognition while at the same time navigating external assumptions and expectations. This collection examines the relationship of Indigenous people to the concept of celebrity in past, present, and ongoing contexts, identifying commonalities, tensions, and possibilities.

International Practices to Promote Budget Literacy Harika Masud, Helene Pfeil, Sanjay Agarwal, Alfredo Gonzalez Briseno, 2017-08-09. Budget literacy is defined as the ability to read, decipher, and understand public budgets to enable and enhance meaningful citizen participation in the budget process. It is comprised of two main parts: i) a technical understanding of public budgets including familiarity with government spending, tax rates, and public debt; and ii) the ability to engage in the budget process comprising of practical knowledge on day-to-day issues as well as an elementary understanding of the economic, social, and political implications of budget policies, the stakeholders involved, and when and how to provide inputs during the annual budget cycle. Given that no international standards or guidelines have been established for budget literacy education to date, this book seeks to address this gap by taking stock of illustrative initiatives promoting budget literacy for youth in selected countries. The underlying presumption is that when supply-side actors in the budget process (governments) simplify and disseminate budget information for demand-side actors (citizens), this information will then be used by citizens to provide feedback on the budget. However, since citizens are often insufficiently informed about public budgets to constructively participate in budget processes, one way to empower them and to remedy the problem of budget illiteracy is to provide budget literacy education in schools to youth, helping them evolve into civic-minded adults with the essential knowledge needed for analyzing their government's fiscal policy, objectives, and measures, and the confidence and sense of social responsibility to participate in the oversight of public resources. This book elaborates on approaches, learning outcomes, pedagogical strategies, and assessment approaches for budget literacy education and presents lessons that are relevant for the development, improvement, or scaling up of budget literacy initiatives.
