Kate Middleton Michael Woodford,2017-07-09 KATE MIDDLETON The Commoner Who Would Be Queen In the lead up to the 20th anniversary of his mother's death Prince Harry brother in law to Kate Middleton made some interesting observations about the monarchy He firstly said that the younger generation of royals feel that it is their role to modernize the monarchy In so doing these royals believe they will maintain its popularity and sustain its role for doing good They consider that by bringing the House of Windsor into line with 21st century thinking attitudes and lifestyles they will enhance their own standing But not for selfish purposes or for self aggrandizement No for far more altruistic reasons They feel that from a position of trust and popularity they can do more to support charities help the poor and suffering and improve the world These are noble aims and are to be applauded But Harry said another thing in the interview In extending the idea of duty and responsibility to Great Britain to the Commonwealth and where possible the world he recognized that one day one of the young royals would be monarch themselves It was just that none of them wanted to do it They knew that they would have to but just as hoovering the sitting room or putting out the bins has to be done but is not much fun it is a necessary but unappealing job We can wonder whether this thought was anywhere in the mind of Kate Middleton Berkshire lass when she agreed to marry Prince William And one day become his queen This is the true story of Kate Middleton a Berkshire commoner who will one day ascend to the throne
