project This book presents a comprehensive examination of Chinese consumer behaviour and challenges the previously dichotomous interpretation of the consumption of Western and non Western brands in China The dominant position is that Chinese consumers are driven by a desire to imitate the lifestyles of Westerners and thereby advance their social standing locally The alternative is that consumers reject Western brands as a symbolic gesture of loyalty to their nation state Drawing from survey responses and in depth interviews with Chinese consumers in both rural and urban areas Kelly Tian and Lily Dong find that consumers situate Western brands within select historical moments This embellishment attaches historical meanings to Western brands in ways that render them useful in asserting preferred visions of the future China By highlighting how Western brands are used in contests for national identity *Consumer Citizens of China* challenges the notion of the patriot s paradox and answers scholars questions as to whether Chinese nationalists today allow for a Sino Western space where the Chinese can love China without hating the West *Consumer Citizens of China* will be of interest to students and scholars of business studies Chinese and Asian Studies and Political Science Kelly Tian is Professor of Marketing and holds the Anderson Chair of Business at New Mexico State University Lily Dong is Associate Professor of Marketing at the University of Alaska at Fairbanks

[Mastering Media with the Raspberry Pi](#) Ralph Roberts, 2017-10-24 Create and maintain Raspberry Pi based entertainment systems in a comprehensive and fun manner Instead of front loading a bunch of theory and minutia this book takes a more practical approach of showing what s needed when it s needed You ll first explore the possibilities and options available Then you ll learn the hardware and software requirements based on various builds and projects Finally you ll be guided through building media centers music players recording studios etc *Mastering Media with the Raspberry Pi* presents all of this and more in an easy to understand and accomplish way in plain English What you ll learn Choose the right Pi model for your project Enhance your media center with peripherals and add ons Get the most from your music and other media Understand the various major media formats out there and how to work with each Who this book is for Students and hobbyists interested in building media centers out of their Raspberry Pis
