The Apple in the Dark Clarice Lispector,2023-11-07 The best one as Clarice Lispector called The Apple in the Dark her famously intense 1961 novel It s the best one Clarice Lispector remarked on the occasion of the publication of The Apple in the Dark I can t define it how it is I can only say that it s much better constructed than the previous ones A book in three chapters with three central characters The Apple in the Dark is in fact highly sculpted while being chiefly a metaphysical book and in this stunning new translation the novel s mysteries and allegories glow with a fresh scintillating light Martim fleeing from a murder he believes he committed plunges into the dark nocturnal jungle stumbling along in a state of both fear and wonder eventually he comes to a remote quiet ranch and finds work with the two women who own it The women are tranquil enough before his arrival but are affected by his radical mystery Soaked through with Martim s inner night his soul is in the darkness where everything is created the novel vibrates with his perpetual searching state of vigil Often he feels close to an epiphany for the first time he was present in the moment in which whatever is happening is happening Yet such flashes flicker out so he s ever on the watch for life to take on the dimensions of a destiny In an interview Lispector once said I am Martim As she puts it in The Apple in the Dark All I ve got is hunger And that unstable way of grasping an apple in the dark without letting it fall

Reap the Wind Karen Chance,2015-11-03 From the New York Times bestselling author of Tempt the Stars comes the latest in the series that s well worth getting hooked on Fresh Fiction You d think that being chief seer for the supernatural world would come with a few perks But as Cassie Palmer has learned being Pythia doesn t mean you don t have to do things the hard way That s why she finds herself on a rescue mission skipping through time even though

The Art of Sensorial Language Barbara Pia Jenič, 2025-07-31 The Art of Sensorial Language examines audience interactivity and multisensory experiences that can be understood internationally and cross culturally It considers interactivity not as a technological mode of interaction but as a direct and immediate communication between the audience and the performers which takes place in person and in which all participants are in contact with each other By describing theatrical techniques and approaches for organically immersing the audience in the story this book shows how the development of these methods is also applicable to multisensory presentations for museums and galleries The author places particular emphasis on the development of scents and their uses for cultural and educational purposes to allow for greater and deeper immersion in an event or installation Inspired by the work of Enrique Vargas the inventor of sensorial language the discussion reveals how this approach not only engages the senses but also integrates additional methods and tools to create a poetic symphony which is particularly important for enriching user experiences in theatres galleries and museums as well as in other forms of immersive experiences This study will be of great interest to experts in multisensory approaches within the fields of the arts and education as well as specialists in cultural heritage and tourism
