Tourism and Degrowth Robert Fletcher, Ivan Murray Mas, Asunción Blanco Romero, Macià Blázquez-Salom, 2020-06-29 Tourism and Degrowth develops a conceptual framework and research agenda for exploring the relationship between tourism and degrowth Rapid and uneven expansion of tourism as a response to the 2008 economic crisis has proceeded in parallel with the rise of social discontent concerning so called overtourism Meanwhile despite decades of concerted global effort to achieve sustainable development socioecological conflicts and inequality have rarely reversed but in fact increased in many places Degrowth understood as both social theory and social movement has emerged within the context of this global crisis However thus far the vibrant degrowth discussion has yet to

engage systematically with the tourism industry in particular while by the same token tourism research has largely neglected explicit discussion of degrowth This volume brings the two discussions together to interrogate their complementarity Identifying a growth imperative in the basic structure of the capitalist economy the contributors contend that mounting critique of overtourism can be understood as a structural response to the ravages of capitalist development more broadly Debate concerning overtourism thus offers a valuable opportunity to re politicise discussion of tourism development generally Exploring of the potential for degrowth to facilitate a truly sustainable tourism Tourism and Degrowth will be of great interest to scholars of tourism environmental sustainability and development The chapters were originally published as a special issue of the Journal of Sustainable Tourism *The World Factbook* ,2012 **The World Factbook 2012-13** Central Intelligence Agency,2013-01-04 In general information available as of May 1 2012 was used in the preparation of this edition Provides brief information on the geography people government economy communications and defense of countries and regions around the world Contains information on international organizations Designed to meet the specific requirements of United States Government Officials in style format coverage and content Includes 4 unattached maps dated June 2012 and October 2012 The October 2012 map is of the world oceans [The World Factbook 2016-17](#) Government Publications Office,2016-08-18 The World Factbook provides information on the history people government economy geography communications transportation military and transnational issues for 267 world entities The World Factbook Reference tab includes maps of the major world regions as well as Flags of the World a Physical Map of the World a Political Map of the World a World Oceans map and a Standard Time Zones of the World map This annual edition also covers information about country profiles and country comparisons It would make an excellent and useful resource for world geography research papers and international relations classes that may study the people history and communication patterns of other countries [The Report: Saudi Arabia 2013](#) , **Building the City of Spectacle** Costas Spirou,Dennis R. Judd,2016-10-27 By the time he left office on May 16 2011 Mayor Richard M Daley had served six terms and more than twenty two years at the helm of Chicago s City Hall making him the longest serving mayor in the city s history Richard M Daley was the son of the legendary machine boss Mayor Richard J Daley who had presided over the city during the post World War II urban crisis Richard M Daley led a period of economic restructuring after that difficult era by building a vibrant tourist economy Costas Spirou and Dennis R Judd focus on Richard M Daley s role in transforming Chicago s economy and urban culture The construction of the city of spectacle required that Daley deploy leadership and vision to remake Chicago s image and physical infrastructure He gained the resources and political power necessary for supporting an aggressive program of construction that focused on signature projects along the city s lakefront including especially Millennium Park Navy Pier the Museum Campus Northerly Island Soldier Field and two major expansions of McCormick Place the city s convention center During this period Daley also presided over major residential construction in the Loop and in the

surrounding neighborhoods devoted millions of dollars to beautification efforts across the city and increased the number of summer festivals and events across Grant Park As a result of all these initiatives the number of tourists visiting Chicago skyrocketed during the Daley years Daley has been harshly criticized in some quarters for building a tourist oriented economy and infrastructure at the expense of other priorities Daley left his successor Rahm Emanuel with serious issues involving a long standing pattern of police malfeasance underfunded and uneven schools inadequate housing opportunities and intractable budgetary crises Nevertheless Spirou and Judd conclude because Daley helped transform Chicago into a leading global city with an exceptional urban culture he also left a positive imprint on the city that will endure for decades to come
