Tourism and Colonization in Indochina (1898-1939) Aline Demay, 2015-01-12 Direct flights to former imperial capitals continued visits to the same tourist sites and the emergence of tours dedicated to the imperial past all pose the question of the heritage of tourism in the former colonies Lesser known as a field of research the study of tourism in colonial situations has begun to impose itself over the past decade as an important issue Interestingly in the colonial era tourism was one element of the policies used by the colonial power to highlight its colony The use of tourist activities for political ends was first confirmed in an October 2 1922 circular composed by the Minister of the Colonies Albert Sarraut This circular required all French overseas territories to organize and develop the tourism sector because along with its economic benefits the tourist of today can be the colonist of tomorrow This theme along with knowledge related more specifically to tourism such as the creation of sites and tours and the background of tourists also contributes to sanitary environmental and planning questions as well as issues concerning the construction of national sentiment How did tourism develop in a territory during the period of colonial expansion How are tourism and colonization related What connections can be found between the two Using archives and tourist publications this book marks an unprecedented work of research into the enactment of tourism in Indochina It places the establishment of tourism in this former French colony along with the tourism policies of Metropolitan France and the attempts to reproduce the organizations established in the Dutch East Indies and in Japan The book which focuses on events in the period from the turn of the twentieth century to the eve of the Second World War analyses the transfer of European tourism practices to Indochina their establishment their integration with policies of valorisation in the 1920s their spatial consequences and the communication established by the state to promote Indochina as a tourist destination for both Indochinese and foreign tourists *Colonialism, Tourism and Place* Denis Linehan, Ian D. Clark, Philip F. Xie, 2020-10-30 This unique book examines the vital and contested connections between colonialism and tourism which are as lively and charged today as ever before Demonstrating how much of the marketing of these destinations represents the constant renewal of colonialism in the tourism business this book illustrates how actors in the worldwide tourism industry continue to benefit from the colonial roots of globalisation **Cultural and Literary Representations of the Automobile in French Indochina** Stéphanie Ponsavady, 2018-08-21 How are the pleasures and thrills of the automobile linked to France's history of conquest colonialism and exploitation in Southeast Asia Cultural and Literary Representations of the Automobile in French Indochina addresses the contradictions of the progress of French colonialism and their consequences through the lens of the automobile Stéphanie Ponsavady examines the development of transportation systems in French Indochina at the turn of the twentieth century analyzing archival material and French and Vietnamese literature to critically assess French colonialism *Vietnam Tourism* Huong T. Bui, Giang T. Phi, Long H. Pham, Huong H. Do, Andrew Le, Binh Nghiem-Phu, 2022-02-18 Vietnam has experienced rapid growth within its tourism industry during the past decades This

**Impure and Worldly Geography** Gavin Bowd, Daniel Clayton, 2019-02-13 Tropicality is a centuries old Western discourse that treats otherness and the exotic in binary us and them terms It has long been implicated in empire and its anxieties over difference However little attention has been paid to its twentieth century genealogy This book explores this neglected history through the work of Pierre Gourou one of the century s foremost purveyors of what anti colonial writer Aim C saire dubbed tropicalit It explores how Gourou s interpretations of the nature of the tropical world and its innate difference from the temperate world were built on the shifting sands of twentieth century history empire and freedom modernity and disenchantment war and revolution culture and civilisation and race and development The book addresses key questions about the location and power of knowledge by focusing on Gourou s cultivation of the tropics as a romanticised networked and affective domain The book probes what C saire described as Gourou s impure and worldly geography as a way of opening up interdisciplinary questions of geography ontology epistemology experience and materiality This book will be of great interest to scholars and students within historical geography history postcolonial studies cultural studies and international relations *Vietnam* Christopher Goscha, 2016-09-13 The definitive history of modern Vietnam and its diverse and divided

**Recycling Infrastructures in Cambodia** Kathrin Eitel, 2022-12-06 This book examines the recycling infrastructure in Phnom Penh Cambodia It considers the circular flows of waste and practices through infracycles maintenance practices that tinker with the social and capitalist order and postcolonial ways of doing politics that co constitute predominant waste fantasies from which naturecultures ooze out shaping urban life in their own

way In this context socially marginalized waste pickers contest the capitalist system by creating tropes about freedom labor autonomy and the will to survive In this regard they are also meddling about a new social order that represents the fine line Cambodia is sashaying between tradition and modernity Waste fantasies that are a result of environmental problematizations however perpetuate postcolonial ways of doing politics by exuding notions of waste as detached from its sociocultural context But ultimately waste slips through the cracks of these dominant imaginaries and global waste reduction models enacting new versions of what waste and the city is providing opportunities for another future waste policy This book is a unique contribution to the field of infrastructure studies emphasizing the importance of perceiving infrastructure as circular in smaller infracycles rather than linear It will be of interest to researchers in the field of environmental anthropology science and technology studies urban studies and Southeast Asian studies The Introduction of this book is available for free in PDF format as Open Access from the individual product page at [www.routledge.com](http://www.routledge.com) It has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

*Critical Landscape Planning during the Belt and Road Initiative* Ashley Scott Kelly, Xiaoxuan Lu, 2021-09-29 This open access book traces the development of landscapes along the 414 kilometer China Laos Railway one of the first infrastructure projects implemented under China's Belt and Road Initiative BRI and which is due for completion at the end of 2021 Written from the perspective of landscape architecture and intended for planners and related professionals engaged in the development and conservation of these landscapes this book provides history planning pedagogy and interdisciplinary framing for working alongside the often opaque planning design and implementation processes of large scale infrastructure It complicates simplistic notions of development and urbanization frequently reproduced in the Laos China frontier region Many of the projects and sites investigated in this book are recent firsts in Laos Laos's first wildlife sanctuary for trafficked endangered species its first botanical garden and its first planting plan for a community forest Most often the agents and accomplices of neoliberal development the planning and design professions including landscape architecture have little dialogue with either the mainstream natural sciences or critical social sciences that form the discourse of projects in Laos and comparable contexts Covering diverse conceptions and issues of development including cultural and scientific knowledge exchanges between Laos and China nature tourism connectivity and new town planning this book also features nine planning proposals for Laos generated through this research initiative since the railway's groundbreaking in 2016 Each proposal promotes a wider landscape approach to development and deploys landscape architecture's spatial and ecological acumen to synthesize critical development studies with the planner's capacity if not naive predilection to intervene on the ground Ultimately this book advocates the cautious engagement of the professionally oriented built environment disciplines such as regional planning civil engineering and landscape architecture with the landscapes of development institutions and environmental NGOs

*Nationalism* Eric Storm, 2024-10-29 A global perspective on the nature and evolution of nationalism from the early modern era to the present The current rise of

nationalism across the globe is a reminder that we are not after all living in a borderless world of virtual connectivity In Nationalism historian Eric Storm sheds light on contemporary nationalist movements by exploring the global evolution of nationalism beginning with the rise of the nation state in the eighteenth century through the revival of nationalist ideas in the present day Storm traces the emergence of the unitary nation state which brought citizenship rights to some while excluding a multitude of others and the pervasive spread of nationalist ideas through politics and culture Storm shows how nationalism influences the arts and humanities mapping its dissemination through newspapers television and social media Sports and tourism too have helped fashion a world of discrete nations each with its own character heroes and highlights Nationalism saturates the physical environment not only in the form of national museums and patriotic statues but also in efforts to preserve cultural heritage create national parks invent ethnic dishes and beverages promote traditional building practices and cultivate native plants Nationalism has even been used for selling cars furniture and fashion By tracing these tendencies across countries Storm shows that nationalism's watershed moments were global He argues that the rise of new nation states was largely determined by shifts in the international context that the relationships between nation states and their citizens largely developed according to global patterns and that worldwide intellectual trends influenced the nationalization of both culture and environment Over the centuries nationalism has transformed both geopolitics and the everyday life of ordinary people

**Nationalisme** Eric Storm, 2024-09-18 Een monumentaal standaardwerk voor wie de huidige tijd beter wil begrijpen Storm is een vernieuwend onderzoeker met een goede neus voor oorspronkelijke thema's en een vlotte pen Niek van Sas Het nationalisme is onmiskenbaar aan een opmars bezig Dat maken

recente verkiezingsoverwinningen van populistische politici over de hele wereld en ook in ons eigen land wel duidelijk. Wanneer is dit verschijnsel ontstaan en hoe heeft het zich ontwikkeld? Waarom vormde de Franse revolutie het startpunt en zien we sinds het uiteenvallen van de Sovjet Unie een opleving? In Nationalisme beschrijft Eric Storm de geschiedenis van dit fenomeen en de vaak verstrekkende gevolgen ervan. Zo bracht de uitvinding van de natiestaat politieke inspraak maar lang niet voor iedereen eeuwenlang werden vrouwen en mensen van kleur uitgesloten. Nationalisme werkte ook door in taal, sport en toerisme en zorgde er zo voor dat een wereld met afzonderlijke naties elk met hun eigen identiteit volstrekt vanzelfsprekend werd. Inmiddels zien we nationalisme overal terug, niet alleen in standbeelden en straatnamen maar ook in andere vormen van cultureel erfgoed, in folklore, typische gerechten, zelfs in de marketing van auto's en kleding en is het gedachtengoed doorgedrongen tot alle haarvaten van de hedendaagse maatschappij. Nationalisme is overal. Hoog tijd voor een allesomvattende wereldgeschiedenis.
