Tourism Grade 12 March Paper:

Contemporary Issues in Cultural Heritage Tourism Jamie Kaminski, Angela M Benson, David Arnold, 2013-12-13 The perceived quality of a destination's cultural offering has long been a significant factor in determining tourist choices of destination. More recently the need to present touristic offerings that include cultural experiences and heritage has become widely recognised that this aspect of the tourism experience is an important differentiator of destinations as well as being amongst the most manageable. This has also led to an increase in the management of such experiences through special exhibitions, events and festivals as well as through ensuring more routine and controlled access to heritage sites. Reflecting the increasing application of cultural heritage as a driver for tourism and development, this book provides for the first time a cohesive volume on the subject that is theoretically rich, practically applied and empirically grounded. Written by expert scholars and practitioners in the field, the book covers a broad range of theoretical perspectives of cultural heritage tourism, regeneration, policy, stakeholders, marketing, socio-economic development, impacts, sustainability, volunteering and ICT. It takes a broad view integrating international examples of sites, monuments as well as intangible cultural heritage, motor vehicle heritage, events and modern art museums. This significant book furthers knowledge of the theory and application of tourism within the context of cultural heritage and will be of interest to students, researchers and practitioners in a range of disciplines.

Safety and Security in Tourism Noel Scott, Eric Laws, Bruce Prideaux, 2013-09-13 Natural disasters, wars and conflicts, epidemics and other major crises can devastate a tourism service or destination. Though there is extensive literature and research on preparation and coping with tourism crises, there is a gap in information on how to best market and recover from the destruction caused to tourism businesses and destinations. This book fills the gap by comprehensively examining how to rebuild the market for a tourism service or destination after a catastrophe. This important book presents leading experts from around the world providing useful instruction on effective

ways to plan for future crisis response and strategies for recovering business A crisis may arise from several types of destructive occurrences from natural physical destruction of important infrastructure to acts of terrorism Because of the broad range of potential problems there is no single strategy for which to deal with crises The book explores a wide range of catastrophes from Hurricane Katrina to tsunamis to war taking a detailed look at management and administrative strategies which can help stimulate tourism recovery This book explores stealth and catastrophic risks risk perceptions mediating the effects of natural disasters on travel intention and various marketing strategies designed to bring customers back This volume may become one of the most crucial resources in a tourism professional s library The book is extensively referenced and includes several tables and figures to clearly explain data This book is essential reading for tourism researchers tourism educators tourism industry managers and tourism industry administrators This book was published as a special issue of the Journal of Travel Tourism Marketing

Slow Travel and Tourism Janet Dickinson, Les Lumsdon, 2010-09-23 It is widely recognized that travel and tourism can have a high environmental impact and make a major contribution to climate change It is therefore vital that ways to reduce these impacts are developed and implemented Slow travel provides such a concept drawing on ideas from the slow food movement with a concern for locality ecology and quality of life The aim of this book is to define slow travel and to discuss how some underlining values are likely to pervade new forms of sustainable development It also aims to provide insights into the travel experience these are explored in several chapters which bring new knowledge about sustainable transport tourism from across the world In order to do this the book explores the concept of slow travel and sets out its core ingredients comparing it with related frameworks such as low carbon tourism and sustainable tourism development The authors explain slow travel as holiday travel where air and car transport is rejected in favour of more environmentally benign forms of overland transport which generally take much longer and become incorporated as part of the holiday experience The book critically examines the key trends in tourism transport and recent climate change debates setting out the main issues facing tourism planners It reviews the potential for new consumption patterns as well as current business models that facilitate hyper mobility This provides a cutting edge critique of the upstream drivers to unsustainable tourism Finally the authors illustrate their approach through a series of case studies from around the world featuring travel by train bus cycling and walking Examples are drawn from Europe Asia Australia and the Americas Cases include the Eurostar train as an alternative to air travel walking in the Appalachian Trail US the Euro Velo network of long distance cycling routes canoe tours on the Gudena River in Denmark sea kayaking in British Columbia Canada and the Oz Bus Europe to Australia

Jones, 2020-10-07 In the early twenty first century international education emerged as an almost ubiquitous concept within discussions of educational curriculum the objectives of schools universities and colleges and government policies for K 12 and higher education Although far from a new phenomenon many jurisdictions now view international education as a highly competitive global industry This book provides a comprehensive analysis of international education policy in Canada tracing the complex history of when how and why it emerged as a policy area of strategic importance Illuminating a uniquely Canadian perspective influenced by regional interests and federal provincial tensions International Education as Public Policy in Canada addresses challenging questions Why was Canada a latecomer in addressing this policy issue What is the relationship between international education and Canadian immigration policy How did international education develop as a major Canadian industry The resulting essays from leading scholars contribute not only to the growing Canadian literature on international education policy but also to a critical global conversation Contemplating where the Canadian story of international education is headed International Education as Public Policy in Canada calls for a broader debate on ethical practices in internationalization focusing on inclusion equity compassion and reciprocity **Rare Earth Frontiers** Julie M. Klinger, 2018-01-15 Rare Earth Frontiers is a work of human geography that serves to demystify the powerful elements that make possible the miniaturization of electronics green energy and medical technologies and essential telecommunications and defense systems Julie Michelle Klinger draws attention to the fact that the rare earths we rely on most are as common as copper or lead and this means the implications of their extraction are global Klinger excavates the rich historical origins and ongoing ramifications of the quest to mine rare earths in ever more impossible places Klinger writes about the devastating damage to lives and the environment caused by the exploitation of rare earths She demonstrates in human terms how scarcity myths have been conscripted into diverse geopolitical campaigns that use rare earth mining as a pretext to capture spaces that have historically fallen beyond the grasp of centralized power These include legally and logistically forbidding locations in the Amazon Greenland and Afghanistan and on the Moon Drawing on ethnographic archival and interview data gathered in local languages and offering possible solutions to the problems it documents this book examines the production of the rare earth frontier as a place a concept and a zone of contestation sacrifice and transformation Resources in Education ,2001 *Federal Trade Commission Reauthorization* United States. Barbados International Monetary Fund, 2010-12-15 The global crisis has hit Barbados front and center The broad economic weakness has hurt the labor market while inflation remains stubbornly elevated The major challenge ahead is to put public debt on a steady declining path to support both domestic and external stability A decisive fiscal adjustment is the best way to protect the exchange rate peg while the current monetary stance is broadly appropriate Banks remain healthy but tighter regulations are needed Supervision of nonbank financial institutions needs to be revamped *Training and Employment Report of the Secretary of Labor* United States. Europe and Central Asia Economic Update, Spring 2023 Ivailo Izvorski, Michael Lokshin, Julia Renee Roseman Norfleet, Dorothe Singer, Ivan Torre, 2023-04-06 Economic growth slowed sharply last year in Europe and Central Asia as Russia's invasion of Ukraine a surge in inflation and the sharp tightening of monetary policy and financing conditions hit private consumption investment and trade The marked increase in food and energy prices boosted inflation to a pace not seen in 20 years The burden of inflation was spread unevenly across households The poorest households faced inflation that was more than 2 percentage points higher than the inflation faced by the richest households with this difference exceeding 5 percentage points in some countries Poverty and inequality rates derived from household specific inflation rates differ from those based on the standard consumer price index CPI approach These differences have important policy implications because many programs use CPI based inflation adjustments which do not accurately capture changes in the cost of living of targeted populations Output growth in the region is projected to remain little changed in 2023 but better than projected in January 2023 largely reflecting upgrades to the pace of expansion in Poland Russia and Türkiye
