Urban Tourism in the Global South Christian M. Rogerson, Jayne M. Rogerson, 2021-07-13 This book examines and addresses the particular character of urban tourism occurring in the global South It presents research essays on tourism in urban areas of South Africa a country which is associated with big 5 nature tourism but where urban areas are also major tourism destinations The book contextualizes urban tourism in South Africa as part of the other half of urban tourism an overlooked but energetic scholarship which is emerging on urban places in the global South The volume moves to present a collection of original material variously on national perspectives on urban tourism following by a cluster of city level

perspectives The last three contributions turn to the role of tourism in small towns the bottom rung in the urban settlement system Issues of concern include gastronomic tourism VFR travel airportsclapes climate change Airbnb and creative tourism Finally as COVID 19 is potentially a defining historical moment for urban tourism the volume incorporates historical research perspectives in order to address the overwhelming present mindedness of mainstream urban tourism writings The book highlights the challenges and opportunities for tourism development in the environment of the urban global South and is relevant to scholars of both tourism and urban studies as well as researchers in development studies *The Routledge Handbook of Tourism and Hospitality Education* Dianne Dredge,David Airey,Michael Gross,2014-10-03 Tourism is much more than an economic sector it is also a social cultural political and environmental force that drives societal change Understanding responding to and managing this change will inevitably require knowledge workers who are able to address a range of problems associated with tourism travel hospitality and the increasingly complex operating environment within which they exist The purpose of this Handbook is to provide an insightful and authoritative account of the various issues that are shaping the higher educational world of tourism hospitality and events education and to highlight the creative inventive and innovative ways that educators are responding to these issues It takes as its central focus a dynamic curriculum space shaped by internal and external factors from global to local scales a variety of values and perspectives contributed by a range of stakeholders and shifting philosophies about education policy pedagogy and teaching practice A benchmark for future curriculum design and development it critically reviews the development of conceptual and theoretical approaches to tourism and hospitality education The Handbook is composed of contributions from specialists in the field is interdisciplinary in coverage and international in scope through its authorship and content Providing a systematic guide to the current state of knowledge on tourism and hospitality education and its future direction this is essential reading for students researchers and academics in Tourism Hospitality Events Recreation and Leisure Studies **Linking Urban and Rural Tourism** Susan L Slocum,Carol Kline,2017-06-16 Destinations rely on regional strategies to support and enhance the tourism product through regional partnerships and integration Integrated tourism is defined as tourism that is explicitly linked to the economic social cultural natural and human structures of the region in which it occurs Integrated tourism has evolved to include numerous meanings and definitions but generally includes a vertical business or industry approach The first of its kind this book applies a more inclusive approach to integration by providing insight into inclusive regional development strategies that support both the needs of urban and rural areas whilst enhancing the tourist experience supporting the positive impacts of tourism and mitigating the negative Regional studies tend to portray either an urban or rural focus without acknowledging that often these spaces constitute joint governance structures similar historical and cultural roots and economic dependencies Sustainable tourism promotes sourcing locally such as using rural agricultural products in urban tourism experiences Furthermore innovative rural marketing strategies linking tourism heritage attractions food and drink trails and artisans with

urban visitors are emerging Including theoretical and applied research and international case studies this will be a valuable resource to academics students and practitioners working in tourism development and regional policy **Routledge Handbook of Tourism Cities** Alastair M. Morrison,J. Andres Coca-Stefaniak,2020-08-27 The Routledge Handbook of Tourism Cities presents an up to date critical and comprehensive overview of established and emerging themes in urban tourism and tourist cities Offering socio cultural perspectives and multidisciplinary insights from leading scholars the book explores contemporary issues challenges and trends Organised into four parts the handbook begins with an introductory section that explores contemporary issues challenges and trends that tourism cities face today A range of topics are explored including sustainable urban tourism overtourism and urbanisation the impact of terrorism visitor host interactions as well as reflections on present and future challenges for tourism cities In Part II the marketing branding and markets for tourism cities are considered exploring topics such as destination marketing and branding business travellers and exhibition hosting This section combines academic scholarship with real life practice and case studies from cities Part III discusses product and technology developments for tourism cities examining their supply and impact on different travellers from open air markets to creative waterfronts from social media to smart cities The final Part offers examples of how urban tourism is developing in different parts of the world and how worldwide tourism cities are adapting to the challenges ahead It also explores emerging forms of specialist tourism including geology and ecology based tourism socialist heritage and post communist destination tourism This handbook fills a notable gap by offering a critical and detailed understanding of the diverse elements of the tourist experience today It contains useful suggestions for practitioners as well as examples for theoretical frameworks to students in the fields of urban tourism and tourism cities The handbook will be of interest to scholars and students working in urban tourism heritage studies human geography urban studies and urban planning sociology psychology and business studies *Destination London* Andrew Smith,Anne Graham,2019-05-21 London is one of the world s most popular destinations and visitors contribute approximately 14.9 billion of expenditure to the city every year Its tourism and events sectors are growing and over the last few years London has received more visitors than ever before However detailed accounts of the city s visitor economy are conspicuously absent This book analyses how the capital is developing as a destination through the expansion of tourism and events into new urban spaces The book outlines how parts of London not previously regarded as tourist territory are now subject to the visitor gaze with tourism spreading beyond established central zones into peripheral suburban and residential areas in part propelled by a big rise in peer to peer accommodation use Simultaneously London s airports and sports stadiums and their surrounds are becoming destinations in their own right New vantage points have been created allowing tourists to explore the city from above at night time or through tours given by the homeless via the opening up of the River Thames or through the transformation of local parks into eventsapes The book explores these trends and shows how urban destinations expand In doing so it enhances our understanding of London and

highlights the growing significance of tourism and events in global cities *City Tourism* Robert Maitland, Brent W. Ritchie, 2009 Capital city status attracts and drives tourism by enhancing a city's appeal to the tourist and its international standing With a focus on city tourism themes this book examines subjects including the identity of a city in a tourism context and practical matters such as promoting the city as a product By examining tourist activities in national capitals the book addresses issues in capital city development as tourist destinations with a broad international approach and case studies on major tourist cities **World Tourism Cities** Robert Maitland, Peter Newman, 2014-05-01 This book presents new research on the capacity of big cities to generate new tourism areas as visitors discover and help create new urban experiences off the beaten track It examines similarities and differences in these processes in a group of established world cities located in the global circuits of tourism The cities featured are Berlin New York London Paris and Sydney In these cities experienced city visitors are contributing to the discovery of new places to visit Many neighbourhoods close to the historic centre and to traditional attractions offer the mix of cultural difference and consumption opportunities that can create new experiences for distinctive groups of city users Each of the cities included in the book offers rich experiences of the re-imagining and re-branding of neighbourhoods off the beaten track and informative stories of the complex relationships between visitors residents and others and of the ambitions of public policy to reproduce these new tourism experiences in other parts of the city *World Tourism Cities* brings together current research in each of the cities and relates the often separate field of tourism research to some of the mainstream themes of debate in urban studies addressing topics such as consumption markets and spaces Drawing on original research in this important group of cities this book has significant messages for public policy In addition the book engages directly with a range of important current academic debates about world cities about cities as sites of consumption and about the smaller scales at which urban neighbourhoods are being transformed The range of cities and the messages about the making of attractive places provides a timely resource for those focused in this area and the book will also have an appeal among those experienced and sophisticated city users that it focuses on *Sustainable Development in Post-Pandemic Africa* Fred Olayele, Yiagadeesen Samy, 2022-10-21 With both domestic and external financing expected to dry up in the wake of the COVID 19 pandemic this book argues that there is a need for fresh ideas and new strategies for achieving sustainable development in Africa In addition to triggering the most severe recession in nearly a century the COVID 19 pandemic has disrupted global value chains causing unprecedented damage to healthcare systems economies and well-being hitting the world's most vulnerable people the hardest Even before the pandemic Africa was suffering from the effects of low commodity prices sluggish GDP growth high debt levels low levels of domestic savings and weak private capital inflows This book argues that now as the continent emerges from the current crisis it will be important to reconfigure current financing sources under a forward-looking framework that incorporates other non-traditional financing tools and mechanisms such as public-private partnerships sovereign wealth funds gender lens investing new growth drivers

and emerging and disruptive technologies Finally the book concludes by adopting a sectoral approach and examining the real economy impacts of new growth drivers such as agriculture value chains industrialization tourism and the blue economy Drawing on a range of original research as well as insights from practice this book will be a useful guide for Global Development and African Studies researchers as well as for policy makers investors finance specialists and global business practitioners and entrepreneurs

Tourism in Transitions Dieter K. Müller, Marek Więckowski, 2017-08-21 This book explores the relationship between transition and tourism geographies on a global scale discussing how tourism has been used as a tool to recover from decline or to manage change caused by event driven rapid transitions in a region's economy politics or environment With case studies from Europe America Asia and Africa it provides examples of how specific communities and industries around the globe have reacted for better or worse It also includes analyses of shifts within the tourism industry itself and examines the complex issues arising for localities that have to face the demands and standards of an increasingly globally interlinked tourism industry From Whistler to Angola casino gaming in Colorado to art tourism in Japan the contributors investigate such factors as tourism induced community change the social and economic impacts second home owners have on rural communities in the developing world reconstruction of local tourism systems after crisis events such as wars and the competitiveness of ski areas in light of climate change Overall the book offers a thoughtful study of the role of geographical and temporal scales for tourism during periods of unprecedented transition equipping readers with new ways of conceptualizing change and adaptation

South Africa's Multilateral Diplomacy and Global Change Philip Nel, Ian Taylor, Janis Van der Westhuizen, 2001 Post apartheid South Africa's foreign policy has accepted a range of leadership responsibilities within multilateral institutions This text assesses how in these various leadership capacities South Africa has been able to punch above its weight diplomatically Pretoria's intervention or support for a particular position has sometimes been crucial in breaking a deadlock or securing the co-operation of others South Africa has also used its profile to act as a voice for the vulnerable smaller states in world affairs Based on their assessment of globalization as a process that holds some benefits but also many dangers for developing countries both the Mandela and Mbeki presidencies have used multilateral forums to push for a greater say by developing countries in global governance This position seems to indicate a reformist tendency in South African foreign policy This book examines whether Pretoria's multilateral diplomacy contributes to global transformation or whether South Africa's policies help maintain a fundamentally flawed global order

Tourism Research Douglas G. Pearce, Richard Butler, 2010 In this edited collection of reflective challenging and sometimes provocative papers derived from the 20th anniversary meeting of the International Academy for the Study of Tourism leading international tourism scholars analyze what progress has been made in tourism research in the last two decades and where research might go in the future

Interdependence of Biodiversity and Development Under Global Change Pierre L. Ibisch, 2010 This new volume of the CBD Technical Series presents an analysis of the systemic character of global change

biodiversity and human development and the relationships between them **Tourism in Transition** Allan Williams,Vladimir Balaz,2000-09-15 This text provides a detailed analysis of the role of tourism in the economic transition which has swept central and eastern Europe since 1989 It includes work on privatization which should be of interest to social scientists and tourism specialists Annual Report Australia.
