Tout Va Bien:

Breaking the Glass Armor Kristin Thompson, 2020-05-05 Classical works have for us become covered with the glassy armor of familiarity wrote Victor Shklovsky in 1914 Here Kristin Thompson defamiliarizes the reader with eleven different films Developing the technique formulated in her Eisenstein s Ivan the Terrible Princeton 1981 she clearly demonstrates the flexibility of the neoformalist approach She argues that critics often use cut and dried methods and choose films that easily fit those methods Neoformalism on the other hand encourages the critic to deal with each film differently and to modify his or her analytical assumptions continually Thompson s analyses are thus refreshingly varied and revealing ranging from an ordinary Hollywood film *Terror by Night* to such masterpieces as *Late Spring* and *Lancelot du Lac* She proposes a formal historical way of dealing with realism using *Bicycle Thieves* and *The Rules of the Game* as examples *Stage Fright* and *Laura* provide cases in which the classical cinema defamiliarizes its own conventions by playing with audience expectations Other chapters deal with Tati s *Les Vacances de Monsieur Hulot* and *Play Time* and Godard s *Tout va bien* and *Sauve qui peut la vie* Although neoformalist analysis is a rigorous distinctive approach it avoids extensive specialized vocabulary and esoteric concepts the essays here can be read separately by those interested in the individual films The book s overall purpose however goes beyond making these particular films more accessible and intriguing to propose new ways of looking at cinema as a whole

Jean-Luc Godard Jean-Luc Godard, 1998 Collected interviews with the French director of *Breathless* and *Hail Mary*

Jean-Luc Godard Douglas Morrey, 2019-01-11 This volume offers a new interpretation of one of the most innovative directors in the history of cinema It is the first book to cover the whole of Godard s career from the French New Wave to the recent triumphs of *Histoire s du cin ma* and *Eloge de l amour* Drawing on a wide range of literary filmic and philosophical texts the book places Godard s work within its intellectual context examining how developments in French culture and thought since 1950 have been mirrored in and sometimes anticipated by Godard s films Numerous sequences from Godard s films are singled out for close analysis demonstrating how the director s radical approaches to narrative editing sound and shot composition have made the cinema into an analytical tool in its own right The book will be essential to all students of Godard s films and of interest to scholars of modern and contemporary French cinema culture and thought

The Radical Faces of Godard and Bertolucci Yosefa Loshitzky, 1995 From the radical 1960s through the neo conservative 1980s and into the early 1990s the provocative cinematic careers of French director Jean Luc Godard and Italian director Bernardo Bertolucci have captured the imagination of filmgoers and critics alike Although their films differ greatly Godard produces highly cerebral and theoretical works while Bertolucci creates films with more spectacle and emotionalism their careers have sparked lively discussion and debate mostly centred around the notion of an Oedipal struggle between them

The Films of Jean-Luc Godard Wheeler W. Dixon, 1997-03-06 In this book Wheeler Winston Dixon offers an overview of all of Godard s work as a filmmaker including his work for television and his ethnographic work in Africa Free from the jargon and value

Buckland, 2013-12-04 The Routledge Encyclopedia of Film Theory is an international reference work representing the essential ideas and concepts at the centre of film theory from the beginning of the twentieth century to the beginning of the twenty first When first encountering film theory students are often confronted with a dense interlocking set of texts full of arcane terminology inexact formulations sliding definitions and abstract generalities The Routledge Encyclopedia of Film Theory challenges these first impressions by aiming to make film theory accessible and open to new readers Edward

Branigan and Warren Buckland have commissioned over 50 scholars from around the globe to address the difficult formulations and propositions in each theory by reducing these difficult formulations to straightforward propositions. The result is a highly accessible volume that clearly defines and analyzes step by step many of the fundamental concepts in film theory ranging from familiar concepts such as Apparatus Gaze Genre and Identification to less well known and understood but equally important concepts such as Alain Badiou's Inaesthetics Gilles Deleuze's Time Image and Jean Luc Nancy's Evidence. The Routledge Encyclopedia of Film Theory is an ideal reference book for undergraduates of film studies as well as graduate students new to the discipline.

Humour in Contemporary France Jonathan Ervine, 2019-11-29 Humour and freedom of expression were widely discussed following the January 2015 Charlie Hebdo attacks. However much analysis failed to assess the evolution of French humour in recent decades. This book examines what both Charlie Hebdo and French stand up comedy can tell us about multiculturalism and humour in contemporary France.

The Sisters of Sinai Janet Soskice, 2009-08-18 Agnes and Margaret Smith were not your typical Victorian scholars or adventurers. Female, middle aged and without university degrees or formal language training, the twin sisters nevertheless made one of the most important scriptural discoveries of their time: the earliest known copy of the Gospels in ancient Syriac, the language that Jesus spoke. In an era when most Westerners, male or female, feared to tread in the Middle East, they slept in tents and endured temperamental camels, unscrupulous dragomen and suspicious monks to become unsung heroines in the continuing effort to discover the Bible as originally written.

The Limits of Auteurism Nicholas Godfrey, 2018-05-10 The New Hollywood era of the late 1960s and early 1970s has become one of the most romanticized periods in motion picture history, celebrated for its stylistic boldness, thematic complexity and the unshackling of directorial ambition. The Limits of Auteurism aims to challenge many of these assumptions. Beginning with the commercial success of Easy Rider in 1969 and ending two years later with the critical and commercial failure of that film's twin progeny, The Last Movie and The Hire, Nicholas Godfrey surveys a key moment that defined the subsequent aesthetic parameters of American commercial art cinema. The book explores the role that contemporary critics played in determining how the movies of this period were understood and how, in turn, strategies of distribution influenced critical responses and dictated the conditions of entry into the rapidly codifying New Hollywood canon. Focusing on a small number of industrially significant films, this new history advances our understanding of this important moment of transition from Classical to contemporary modes of production.
