Music and the Young Mind Maureen Harris, 2009-04-16. Maureen Harris has written an early childhood music program that is easily incorporated into the classroom routine. Written for the early childhood educator, experienced or trainee musician, or nonmusician, this book describes a music-enriched environment for teaching the whole child. Now educators can put research into practice and benefit from the wealth of knowledge and research acquired over the centuries on the power of music. With easy-to-follow lesson plans, sing-along CDs sung in a suitable pitch for the young child, and supporting literature, educators can gain musical confidence as they explore research on child development, learn how to create a music-enriched environment, and build musical confidence. See a curriculum time frame and follow lesson plans with ideas for further musical creativity and exploration. In addition, the multicultural section shows how to set up an early childhood music setting that maximizes the benefits of a variety of cultural values and practices. As you read this book, you will begin to see music as a biological human need, an incredible vehicle for enhancing intelligence, and a means to connecting and uniting people around the world.

Research in Young Children's Literacy and Language Development Olivia N. Saracho, 2019-12-13. The importance of the early years in young children's lives and the rigid inequality in literacy achievement are a stimulating backdrop to current research in young children's language and literacy development. This book reports new data and empirical analyses that advance the theory of language and literacy with researchers using different methodologies in conducting their study, with both a sound empirical underpinning and a captivating analytical rationalization of the results. The contributors to this volume used several methodological methods, e.g., quantitative, qualitative, to describe the complete concept of the study, the achievement of the study, and the study in an appropriate manner based on the study's methodology. The contributions to this volume cover a wide range of topics, including dual language learners, Latino immigrant children, children who have hearing disabilities, parents, and teachers.
