 UNIVERSITY OF TECHNOLOGY - VNUHCM FACULTY OF EEE		FINAL EXAM	
		Semester/Academic year	2 2021-2022
		Date	28/06/2022
		Course title	Solid State Electronic Devices
Course ID		EE2411	
Duration		90 mins.	Question sheet code 0001
Notes - Closed books, closed notes -----			

(The above part must be hidden when copying for exams)

Question 5:

Use the RTL design process to design a system that outputs the average of the most recent two data input samples. The system has an 8-bit unsigned data input **I**, and an 8-bit unsigned output **avg**. The data input is sampled when a single-bit input **S** changes from 0 to 1. Choose internal bit widths that prevent overflow.

Tony Lima Sample Final Exam:

A Compendium of Neuropsychological Tests Elisabeth Sherman, Jing Tan, Marianne Hrabok, 2023-04-25 The Compendium is an essential guidebook for selecting the right test for specific clinical situations and for helping clinicians make empirically supported test interpretations. It includes over 85 test reviews of well known neuropsychological tests and scales for adults. It includes tests of premorbid estimation, dementia screening, IQ, attention, executive functioning, memory, language, visuospatial skills, sensory function, motor skills, performance validity, and symptom validity. It covers basic and advanced aspects of neuropsychological assessment including psychometric principles, reliability, test validity, and performance. Symptom validity testing.

Theory and Practice of Quality Assurance for Machine Learning Systems Samuel Ackerman, Guy Barash, Eitan Farchi, Orna Raz, Onn Shehory, 2024-10-26 This book is a self-contained introduction to engineering and testing machine learning (ML) systems. It systematically discusses and teaches the art of crafting and developing software systems that include and surround machine learning models. Crafting ML-based systems that are business grade is highly challenging as it requires statistical control throughout the complete system development life cycle. To this end, the book introduces an experiment-first approach, stressing the need to define statistical experiments from the beginning of the development life cycle and presenting methods for careful quantification of business requirements and identification of key factors that impact business requirements. Applying these methods reduces the risk of failure of an ML development project and of the resultant deployed ML system. The presentation is complemented by numerous best practices, case studies, and practical as well as theoretical exercises and their solutions designed to facilitate understanding of the ideas, concepts, and methods introduced. The goal of this book is to empower scientists, engineers, and software developers with the knowledge and skills necessary to create robust and reliable ML software.

Cognition Thomas A. Farmer, Margaret W. Matlin, 2023-05-02 An engaging and relatable examination of how we perceive and interpret the world around us. The study of human cognitive processes provides insight into why we act or react the way we do. Understanding cognition can help us understand ourselves and others and can even allow us to make educated predictions about future behaviors. In *Cognition*, 11th Edition, author Thomas Farmer updates this classic text with the latest advances in the field and more in-depth coverage of prominent topics. Expanded and refined throughout, this edition retains the breadth of scope and depth of detail that has made it the go-to text on the topic. *Cognition* emphasizes the link between conceptual cognitive psychology and real-world experience. Case studies, current trends, and historical perspectives merge to provide a comprehensive understanding of core principles and theories. It discusses behavioral measures and overviews classical behaviorist paradigms. It extends the discussions of sensory transduction, procedural memory, and more. It clarifies theories of attention and the distinction between controlled vs. automatic processing. It includes self-quizzes at the end of each chapter plus updates to all chapters with new and revised content. New to the 11th Edition: On average, each chapter includes three or four

major points of revision aimed either at better explaining a particular process or theory or at bring the examination of cognitive processes up to date with current science Practice questions for each chapter are available in formats suitable for both pen and paper use and digital use Instructor resources are enhanced with new lecture presentation slides and chapter outlines annotated by the author to facilitate lecture design and delivery *Developing DBASE IV Applications* Tony Lima,1989 Subterranean Struggles Anthony Bebbington,Jeffrey Bury,2013-11-15 Over the past two decades the extraction of nonrenewable resources in Latin America has given rise to many forms of struggle particularly among disadvantaged populations The first analytical collection to combine geographical and political ecological approaches to the post 1990s changes in Latin America s extractive economy Subterranean Struggles closely examines the factors driving this expansion and the sociopolitical environmental and political economic consequences it has wrought In this analysis more than a dozen experts explore the many facets of struggles surrounding extraction from protests in the vicinity of extractive operations to the everyday efforts of excluded residents who try to adapt their livelihoods while industries profoundly impact their lived spaces The book explores the implications of extractive industry for ideas of nature region and nation resource nationalism and environmental governance conservation territory and indigenous livelihoods in the Amazon and Andes everyday life and livelihood in areas affected by small and large scale mining alike and overall patterns of social mobilization across the region Arguing that such struggles are an integral part of the new extractive economy in Latin America the authors document the increasingly conflictive character of these interactions raising important challenges for theory for policy and for social research methodologies Featuring works by social and natural science authors this collection offers a broad synthesis of the dynamics of extractive industry whose relevance stretches to regions beyond Latin America **A Dictionary of Roman and Greek Antiquities ...** Anthony Rich,1860 Handbook of Management Accounting Research Christopher S. Chapman,Anthony G. Hopwood,Michael D. Shields,2011-09-14 Volume two of the Handbooks of Management Accounting Research consists of two groups of chapters The first draw together research that has focussed on particular management accounting practices The second set synthesise contributions to the literature that have been focussed within particular organisational contexts Volume two concludes with a review of research on how management accounting practice and research varies around the world Special pricing available if purchased as a set with Volume 1 Documents the scholarly management accounting literature Publishing both in print and online through Science Direct International in scope
