Emergency Management Agency,2015-01-13 Throughout the United States at any given time of year there are festivals concerts fairs sporting events and many other large and small events that gather or have the potential to gather large crowds Under normal conditions these events go on with few or no problems When something goes wrong however either as a result of a natural hazard or a manmade hazard then local emergency management becomes involved These mass gatherings are

also potential targets for terrorists Multiple deaths and injuries at large public events have occurred consistently and over a wide spectrum of countries and types of events Certain highly competitive sports events particularly soccer and rock concerts and festivals tend to produce spectator generated incidents while air shows and auto races tend to produce more participant generated occurrences In some instances advanced assessment of and planning for these events failed to occur or when they did they failed to identify the potential for disaster or mitigating or coping strategies for a major incident The purpose of this manual is the prevention of injury suffering or death that may occur as a result of poor planning or preventable incidents at public events This manual is intended to provide guidance for the management of risks associated with conducting events that involve mass gatherings of people and assist planners and organizers in making such events safe and successful FEMA has prepared this manual for use by anyone planning or conducting a special event or mass gathering This manual is intended to enable its users to ensure that adequate measures and systems are in place to prevent reduce and provide care for injuries illness and suffering that may occur Many people in addition to health personnel contribute significantly to the success of a public event Therefore FEMA anticipates that this manual will be distributed to event promoters managers public and private organizations emergency service personnel government bodies and any individual or organization that contributes to the planning of events Wide distribution is encouraged providing that individuals understand that the detailed contents of the manual are directed principally at managing the health and safety aspects of the event for all participants officials and spectators

Special Events Medical Services Clay Richmond,Doug Poore,2010-09-27 From staffing to set up Special Events Medical Services

SEMS prepares EMS personnel to properly plan for and manage medical response at any type of special event in their community. This concise highly interactive continuing education course consists of the SEMS textbook and online course. Since no two special events are alike, SEMS covers the basic principles to apply when planning for and working at any type of special event including Preplanning, First aid station planning and set up, Communications, Safety concerns, Mass casualty considerations. Chapters on specific types of events include weather and outdoor events, stadium and mega events, equestrian events and rodeos and extreme and combat sports events. The SEMS online course walks students through the process of creating an emergency medical response plan and implementing it during a special event. An access code for the SEMS online course is printed on the inside front cover of this textbook. Upon successful completion of the course, students will receive a Course Completion Certificate from the American Academy of Orthopaedic Surgeons. Providing standby services for special events requires specialized knowledge and skills beyond initial EMS training. With special events medical services training, new and seasoned EMS personnel alike can ensure a timely and appropriate medical response regardless of the special event size or type.

Mass Gathering Medicine William J. Brady, Mark R. Sochor, Paul E. Pepe, K. Sophia Dyer, John C. Maino II, 2024-04-11. Mass medical deployments to large events such as music festivals or sporting events are increasing in number, size and complexity. This textbook provides guidance and direction for rational, effective and practical medical management of mass gathering events for medical leaders. This is the first authoritative text on mass event medicine, filling a much needed gap in a large and important area of the specialty. An international group of contributors introduce the specialty and cover topics such as general deployment, staffing, equipment and resources, moving on to more complex issues such as the business aspect of mass gathering medicine and the legal implications. There are also practical chapters on specific types of events and adverse events such as terrorism, severe weather and civil disobedience. An invaluable text for all healthcare professionals planning for and attending mass events, particularly EMS professionals, large event planners and administrators and law enforcement and security personnel.

Security Risk Management Body of Knowledge Julian Talbot, Miles Jakeman, 2011-09-20. A framework for formalizing risk management thinking in today's complex business environment.
