

SPENCER

THE GERMOPHOB

"We need to clean."

Spencer hates germs – a lot. An acute myso-phobic, he was pretty much a hermit, avoiding all human contact. Spencer even went so far as to shave himself smooth, in an attempt to eliminate any microscopic mites that could be living in his hair. He kept his beard though, because it caught the crumbs from his food before they could land on his clothes. Spencer even bought a hazmat suit and proceeded to scrub, bleach, and fumigate his house after finding fungus in the shower grout. Kept safe by his isolation during the initial outbreak, Spencer was forced to venture out when his supplies were exhausted. Facing his worst nightmare of leaving his sterile cocoon, he soon discovered he wasn't scared. No... no... he was **ANGRY!** Angry at the hordes of disgusting, rotten, disease riddled masses! Now he's going to sterilize the world, one zombie at a time...

The Satanism Scare Joel Best, 2017-09-29 Although there is growing concern over Satanism as a threat to American life the topic has received surprisingly little serious attention Recognizing this the editors of this volume have selected papers from a wide variety of disciplines broadly covering contemporary aspects of Satanism from the vantage points of studies in folklore cults religion deviance rock music rumor and the mass media All contributors are skeptical of claims that a large powerful satanic conspiracy can be substantiated Their research focuses instead on claims about Satanism and on the question of whose interests are served by such claims Several papers consider the impact of anti Satanism campaigns on public opinion law enforcement and civil litigation child protection services and other sectors of American society The constructionist perspective adopted by the editors does not deny the existence of some activities by real Satanists and two papers describe the workings of satanic groups Whatever the basis of the claims examined and analyzed there is growing evidence that belief in the satanic menace will have real social consequences in the years ahead
