Spheres Of Influence Grand Central Arena 2:

Spheres of Influence Ryk Spoor, 2025-02-18 Sequel to popular space adventure Grand Central Arena Leader of the Faction of Humanity It was a ridiculous title but the Arena said that was what Captain Ariane Austin was since she led the crew of the Holy Grail in their discovery of the impossible physics violating place and their eventual return and when the high omnipotent Arena said something it meant it Ariane must discover what it means to be the Leader of Humanity both for herself and for humanity before her enemies at home or in the Arena depose her kill her or worse It will take all her luck Marc DuQuesne's indomitable will Simon Sandrisson's genius and the peerless skill of a living legend And in the end humanity's fate in the galaxy and beyond will hinge on the choice of an uncertain ally who has nothing to gain and everything to lose by aiding those neophyte upstarts the humans Medieval Authorship and Cultural Exchange in the Late Fifteenth Century Rombert Stapel, 2020-12-28 Medieval Authorship and Cultural Exchange in the Late Fifteenth Century is a multidisciplinary study of late medieval authorship and the military orders framed as a whodunit that uncovers the anonymous author of the Utrecht Chronicle of the Teutonic Order Through a close analysis of the Utrecht Chronicle of the Teutonic Order and its manuscripts and by exploiting a wide range of scholarly techniques from traditional philology and extensive codicological examinations to modern digital humanities techniques the book argues that the recently resurfaced Vienna manuscript is actually an author's copy written in direct cooperation with the original author This important assertion leads to a reinterpretation of the text its sources and composition authorship and the context in which it was conceived It allows us to associate the text with an upsurge of historiographical activities by various military orders across the continent seemingly in response to the publication and aggressive dissemination of the account of the Siege of Rhodes by Guillaume Caoursin in 1480 Furthermore the text can be positioned at the crossroads between different cultural spheres ranging from the Baltic region to the Low Countries spanning French German Dutch and Latin linguistic traditions This book will appeal to scholars and students of medieval history as well as those interested in cultural history and the military religious orders

Journal of Soviet and Post-Soviet Politics and Society Julie Fedor, Samuel Greene, Andre Härtel, Andrey Makarychev, Andreas Umland, 2016-10-11 This special issue deals with the phenomenon of violence in the post Soviet space It examines both political and legal discourses and practices of internal and external violence broadly conceived simultaneously aspiring to situate them in the broader literature on political violence and ethnic and separatist conflict and to examine these from political legal and security studies perspectives The issue approaches the problem of violence in the post Soviet space from three perspectives international structural inter state and domestic political The contributors focus on structural sources of violence such as the relevance of the self determination principle the role of democratization and the relationship between violent behavior inside and outside the state They also analyze the role of the Russian Federation in generating perpetuating and mitigating political violence Finally they adopt a bottom up approach exploring how non state actors

contribute to political violence **Eastern Partnership: A New Opportunity for the Neighbours?** Elena Korosteleva, 2014-01-02 This volume offers a collective assessment of the development and impact of the European Neighbourhood Policy and the Eastern Partnership Initiative on its eastern neighbours Belarus Ukraine and Moldova in particular with Russia's added perspective Founded on extensive empirical and conceptual research the volume uniquely bridges the perspectives of all parties across the EU's eastern border in an attempt to understand advantages and problems related to the effective implementation of the EU policies in the eastern region The undertaken research points to the prevalence of the top down and conditional governance approach in EU treatment of the outsiders which is not only Eurocentric and prescriptive in nature but also falls short of the declared partnership principles Without the understanding of partners internal dilemmas and needs which could only be achieved through the equivalence and reciprocity of partnership the EU would struggle to make the policy effective and legitimate in the region and to buttress its reputation as a credible force for good on the international arena This book was published as a special issue of the Journal of Communist Studies and Transition Politics **Bulletin of the Atomic Scientists** ,1970-06 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world **Hemisphere** ,2004

Action research is a term used to describe a family of related approaches that integrate theory and action with a goal of addressing important organizational community and social issues together with those who experience them. It focuses on the creation of areas for collaborative learning and the design enactment and evaluation of liberating actions through combining action and research reflection and action in an ongoing cycle of cogenerative knowledge. While the roots of these methodologies go back to the 1940s, there has been a dramatic increase in research output and adoption in university curricula over the past decade. This is now an area of high popularity among academics and researchers from various fields, especially business and organization studies, education, health care, nursing, development studies, and social and community work. The SAGE Encyclopedia of Action Research brings together the many strands of action research and addresses the interplay between these disciplines by presenting a state of the art overview and comprehensive breakdown of the key tenets and methods of action research as well as detailing the work of key theorists and contributors to action research.

Problems of Communism, 1985 **Acts: An Earth Bible Commentary** Michael Trainor, 2020-02-20

The gospel of Luke presents an ecological symphony that reveals a Jesus connected to Earth. His ministry touches all aspects of creation, human and non-human, and invites disciples into an ecological asceticism. This same spirit continues in the Acts of the Apostles. In this Earth Bible Commentary on Acts, Michael Trainor allows our environmental concerns to shape his interpretative approach, and thus ecological nuances emerge. Luke's household of disciples, imbued with the spirit of the risen Jesus, to embrace the world and bring to it a word of reconciliation, embark on this mission. This formally begins at Pentecost with their reception of God's creative and renewing Spirit that empowers them as Earth's children. From this moment, an explosion of activity moves them over Earth's lands, beginning in Jerusalem, Earth's navel (Acts 1:1-8), into Samaria, the space in between that navel and Galilee, the garden of God's earthly delights (Acts 8:2-11, 17), to the ends of Earth, Rome (Acts 11:18-28, 33). As we trace Luke's vast geographical journey around the Mediterranean, key moments highlight fresh environmental insights that offer new hope for contemporary disciples seeking ecological affirmation at this particular time in world history.
