Intersected Identities Erica Segre, 2007 There has always been an important visual element to the construction and questioning of national identity in post Independence Mexico though one that has not always been given its due outside of the celebrated and much studied muralists. Ranging from the early nineteenth century to the present from the vogue for the picturesque illustrated periodicals and the influential writings of Altamirano to a wealth of twentieth century graphic artists filmmakers and photographers this book re-examines the complex variety of ways in which that visual element has operated. In particular it looks at the ways in which discourses concerning ethnicity and cultural hybridity have been echoed and transformed in Mexican visual culture resulting in fields of visual discourse which are eclectic and increasingly self reflexive.

La modernización administrativa: el marco jurídico de la Gestión Pública Julián Torrado Sancho, 2016-09-05 Este libro examina los efectos de la modernización administrativa en el marco jurídico cuyo desplazamiento o indeterminación en la gestión pública con independencia las políticas que se planteen irrumpe en los principios del Estado de Derecho y pone en riesgo su función esencial en la forma liberal democrática. El análisis histórico integral del fenómeno de la modernización esclarece las relaciones entre las dimensiones jurídica y técnica con los sectores público y privado. Esto permite reconocer el papel director del marco jurídico administrativo en el servicio de los intereses generales. Objetivo esencial de la Administración pública. This book examines the effects of administrative modernisation in the legal framework whose displacement or indetermination in public management regardless of any changes in policies impacts on the rule of law and threatens its essential role in the liberal democratic system. The comprehensive historical analysis of the phenomenon of modernisation sheds light on the relationship between the legal and technical dimensions and how this interacts with the public and private sectors. This allows the recognition of the leading role of Administrative Law in the service of common interest the essential objective of the Public Administration.

Crisis y reforma de la Administración Pública, 2011 El libro parte de la necesidad de reconsiderar la Administración Pública y de adaptarla a los profundos cambios que está produciendo la crisis económica e institucional. La tesis central que se mantiene es que las corrientes eficientistas y de gobernanza son insuficientes para ofrecer un pensamiento coherente sobre el servicio público. Es preciso reorientar la administración comenzando por una reflexión profunda sobre su finalidad o misión. Se aborda de forma detallada el proceso modernizador en las Administraciones españolas y en concreto en Andalucía y Castilla y León que se toman como referencia en los diversos capítulos. Además se estudia el contexto normativo de la modernización en España las tendencias y las buenas
