ORIGINAL TEXT

"Now, what mortal imagination could conceive it?" whispered the old lady confidentially to Hester. "Yonder divine man! That saint on earth, as the people uphold him to be, and as—I must needs say—he really looks! Who, now, that saw him pass in the procession, would think how little while it is since he went forth out of his study,—chewing a Hebrew text of Scripture in his mouth, I warrant,—to take an airing in the forest! Ah! we know what that means, Hester Prynne! But, truly, forsooth, I find it hard to believe him the same man. Many a church-member saw it, walking behind the music, that has danced in the same measure with me, when Somebody was fiddler, and, it might be, an Indian powwow or a Lapland wizard changing hands with us! That is but a trifle, when a woman knows the world. But this minister! Couldst thou surely tell, Hester, whether he was the same man that encountered thee on the forest-path?"

MODERN TEXT

"Who could have imagined?" the old lady whispered confidentially to Hester. "That holy man! People say that he is a saint on earth, and—I must say—he looks like one! Seeing him in the procession now, who would think that not long ago he left his study to breathe the fresh air of the forest! Well, we know what that means, Hester Prynne! But I find it truly hard to believe that he is the same man. Many church members walking in the procession have joined me in my witchcraft. That means little to a worldly woman. But this minister! Would you have known, Hester, that he was the same man who met you on the forest path?"

medium could evolve to present more nuanced depictions of monstrosity **Just the Facts** David T.Z. Mindich, 1998 If American journalism were a religion as it has been called then its supreme deity would be objectivity The high priests of the profession worship the concept while the iconoclasts of advocacy journalism new journalism and cyberjournalism consider objectivity a golden calf Meanwhile a groundswell of tabloids and talk shows and the increasing infringement of market concerns make a renewed discussion of the validity possibility and aim of objectivity a crucial pursuit David T Z Mindich reaches back to the nineteenth century to recover the lost history and meaning of this central tenet of American journalism His book draws on high profile cases showing the degree to which journalism and its evolving commitment to objectivity altered and in some cases limited the public s understanding of events and issues
