Holiness Bob Tennant, 2013-10-24 Bob Tennant presents a history of the missionary work cultures and rhetoric of the Church of England in 1760-1870 when it was the predominant organizer of Protestant overseas missions. Through close attention to the Society for Promoting Christian Knowledge (SPCK) founded 1699, the Society for the Propagation of the Gospel in Foreign Parts (SPG) 1701, and the Church Missionary Society (CMS) 1799, Tennant offers a systematic exploration of the complex relationship between the Societies' policies, decision-making systems, and administration as recorded in their unpublished minute books and the rhetorical and theological activity of their sermon literature. Thus, their corporate holiness is shown to be a synthesis of theology, ministry, rhetoric, administration, and methods of building public support. In the process, Tennant also offers analyses of controversies within the Church of England about questions such as the relationship of Bible to liturgy, the nature and techniques of mass education, charitable behaviour, and the processes of decision-making. Supported by statistical evidence, he offers a revisionist account of the Church's relationship to the American Revolution, the Romantic movement, and the Indian Mutiny. Besides offering a critical history of his subject, Tennant also suggests a methodology for approaching a general thesis of Christian missionary societies on their own terms, theoretically separable from and avoiding the distortions and imbalances which have been imposed by the secularist imperial historiography to which they have so often been subordinated.

Speeches and Addresses of William E. Russell William Eustis Russell, 1893 *The Strategic Options of Middle Powers in the Asia-Pacific* Chien-Wen Kou, Chiung-Chiu Huang, Brian Job, 2022-06-23 This book analyses the responses of middle powers in the Asia Pacific toward the contemporary great powers rivalry of the United States and China through specific case studies of South Korea, Australia, Japan, India, Taiwan, and Vietnam. Presenting local perspectives from multiple middle powers as they face the task of maintaining the international order in light of the recent competition between China and the United States, it further develops theories of foreign policy, analyses forming a systematic framework through initiating crucial concepts including reluctant hedging, economic statecraft, and strategic position-taking. The contributions also provide an in-depth examination of the contemporary geopolitics of the region, including the impact of both the Trump and Biden administrations, Beijing's Wolf Warrior diplomacy, cross-strait relations with Taiwan, and the influences of Japan, Vietnam, Australia, and South Korea, revealing that regional middle powers do indeed exert influence on the direction of regional cooperation in the Asia Pacific. Providing comprehensive studies of many regional powers in the Asia Pacific, this will be a valuable resource for scholars and students of International Politics, Asian Politics, Asian Studies, as well as policy makers on Asia-Pacific relations.
