Spinoza Transalpin Les Interprétations Actuelles En Italie:

Spinoza transalpin Chantal Jaquet, Pierre-François Moreau, 2014-12-17 Spinoza transalpin est née de la rencontre entre chercheurs spinozistes italiens et français et de la confrontation de leurs interprétations les plus récentes sur la métaphysique la théorie de la connaissance la politique et les rapports entre philosophie et théologie *Naturalism and Unbelief in France, 1650-1729* Alan Charles Kors, 2016-06-20 This book shows how absolute naturalism deciphering nature without reference to God emerged from the inheritance dynamics and debates of orthodox culture **Epicureans and Atheists in France, 1650-1729** Alan Charles Kors, 2016-06-28 This book describes how French Christian culture allowed the dissemination of Epicureanism which denied divine design In its wake an assertive atheism appeared *Spinoza: Reason, Religion, Politics*, 2024-08-09 At his death Spinoza left two major works very different from one another The first is the *Ethics* rigorously set out in geometrical terms with definitions axioms and theorems In the *Ethics* Spinoza takes the reader down the path of reason to an ultimate beatitude a rational salvation a kind of peace of mind attained through the true knowledge of God oneself and one's place in the world The other is of a very different sort The *Tractatus theologico politicus* is set out in twenty chapters It begins with a discussion of prophecy and revelation followed by a detailed description of Scripture and what we can learn from it the message of scripture And that message is to be obedient to God and to love our neighbours as ourselves Two books two styles of argument two very different paths to salvation arguably two Gods and arguably two very different kinds of kinds of salvation at the end But one author The challenge is evident how do these books fit together One is about reason the other about revelation one is about personal salvation the other more focused on how we live together Spinoza's writing has always drawn strong reactions both positive and negative he was accepted by some as a kind of secular prophet offering us a guide to life and rejected by others as a kind of atheist and heretic In this book a diverse international group of seventeen scholars confronts these two central works in the philosophical canon and explores what Spinoza is trying to tell us about life the world and our place in it *Spinoza on Reason, Passions, and the Supreme Good* Andrea Sangiacomo, 2019-12-12 Spinoza's thought is at the centre of an ever growing interest Spinoza's moral philosophy in particular points to a radical way of understanding how human beings can become free and enjoy supreme happiness And yet there is still much disagreement about how exactly Spinoza's recipe is supposed to work For long time Spinoza has been presented as an arch rationalist who would identify in the purely intellectual cultivation of reason the key for ethical progress Andrea Sangiacomo offers a new understanding of Spinoza's project by showing how he himself struggled during his career to develop a moral philosophy that could speak to human beings as they actually are imperfect passionate often not very rational Spinoza's views significantly evolved over time In his early writings Spinoza's account of ethical progress towards the Supreme Good relies mostly on the idea that the mind can build on its innate knowledge to resist the power of the passions Although appropriate social conditions may support the individual's pursuit of the Supreme Good achieving it does

not depend essentially on social factors In Spinoza s later writings however the emphasis shifts towards the mind s need to rely on appropriate forms of social cooperation Reason becomes the mental expression of the way the human body interacts with external causes on the basis of some degree of agreement in nature with them The greater the agreement the greater the power of reason to adequately understand universal features as well as more specific traits of the external causes In the case of human beings certain kinds of social cooperation are crucial for the development of reason This view has crucial ramifications for Spinoza s account of how individuals can progress towards the Supreme Good and how a political science based on Spinoza s principles can contribute to this goal

epurazione delle forme del mito e del pensiero teologico dalle spiegazioni causali sulla genesi e sulla natura del cosmo. Ciononostante la persistenza dell'oscuro mondo pulsionale si mostrata come fondo residuale di un universo enigmatico luogo di una resistenza molto tenace e indisponibile a farsi ingabbiare nelle rassicuranti forme del logos. Il volume presenta alcuni snodi del pensiero antico moderno e contemporaneo nei quali si delinea una vera e propria filosofia della paura e cio lo sforzo analitico del pensiero di fare i conti con quell'oscuro mondo sociale pulsionale politico che collocandosi al di fuori della logica della ragione minaccia con la sua stessa esistenza lo sviluppo della conoscenza umana o delle forme della vita sociale e politica.

L'homme entier Faustino Fabbianelli, Jean-François Goubet, 2017. Ce volume trace les lignes de fond d'une discussion vive quoique fragmentaire et dans le temps entre quelques uns des principaux philosophes des époques moderne et contemporaine. Il propose différents modèles holistiques de l'homme en opposition certaines formes actuelles de réduction théorique.

Spinoza transatlantique Chantal Jaquet, Pierre-François Moreau, Pascal Sévérac, 2020. Dans cet ouvrage les principaux philosophes et historiens de la philosophie des États Unis spécialistes de Spinoza présentent leurs interprétations et dialoguent avec leurs homologues français. C'est la première fois qu'une discussion systématique entre ces deux traditions a lieu. Elle fait suite au dialogue engagé entre Italiens et Français dans le volume *Spinoza transalpines* éditions de la Sorbonne 2014. Si la philosophie ignore les nationalismes elle n'ignore pas les langues. Ainsi se créent dans chaque pays des traditions d'interprétation. Elles partagent des références communes lisent les auteurs selon des problématiques liées leur histoire et s'expriment dans des styles spécifiques propres leur formation et leurs institutions. Loin de générer le débat ces différences rendent au contraire nécessaires les confrontations. Cette rencontre révèle que les philosophes américains prennent en compte les analyses de Guérault, Matheron, Althusser ou Deleuze pour les prolonger, les contester ou les mesurer leurs propres recherches. Elle témoigne surtout d'une évolution du commentaire. Il fut un temps où la lecture américaine se concentrait sur la logique et la métaphysique alors que les questions d'éthique et de politique ainsi que les discussions sur la religion semblaient un domaine réservé la recherche française. Il apparaît maintenant que ces frontières se dissolvent et que durant ces dernières années les thématiques de la communauté, de la superstition, de l'objectivité du bien et du mal de la génrosité se développent outre Atlantique dans de nouvelles perspectives.
