

> Workbook answers

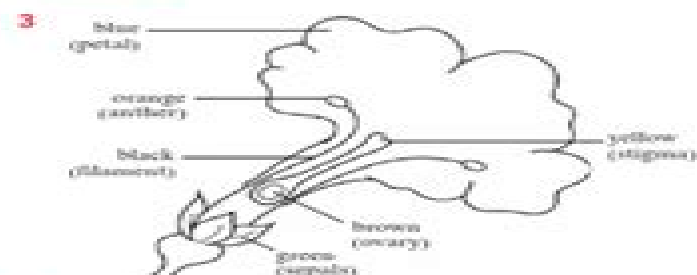

Unit 1 Life cycles of flowering plants

1.1 Flowering and non-flowering plants

Focus

- 1 A: non-flowering; B: non-flowering; C: flowering; D: non-flowering; E: flowering; F: flowering.
- 2 Correct order: seeds → new plant → flower → fruit (positions in the cycle are not important).

Practice

- 4 The petals often have bright colours to attract insects. The male parts of the flower are the stamens. They make pollen in their tips, which are called anthers.
The female part of the flower is the carpel. It is made up of the stigma, which collects pollen, and the ovary, which contains the eggs.

Challenge

- 5 A: anther; B: ovary; C: stigma; D: sepal
- 6 a The petals.
b Learners to draw and label the petals on flower.

- 7 a Yellow, orange or brown. The anther contains the pollen which is yellow/ orange/brown.
b Green. It is a sepal, which is a small green leaf on the outside of the flower.

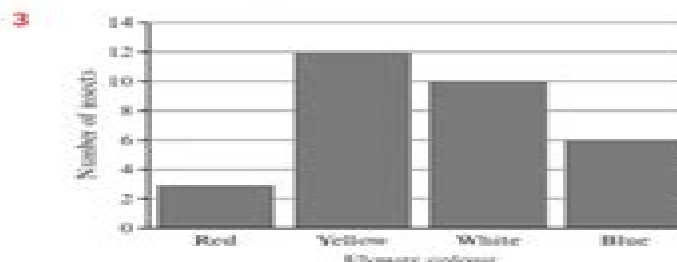

1.2 Pollination, fruits and seeds

Focus

- 1 a The anthers of flowers make a yellow powder. This is called pollen.
b Pollination happens when pollen moves from the anther to the stigma of a flower of the same type.
c Some plants use wind to blow the pollen far away.
d Insects visit flowers to feed on nectar. They get pollen on their bodies at the same time.
e The pollen and the egg join together. This happens inside the ovary during fertilisation. This is how seeds form.
f The ovary becomes the fruit.

Practice

- 2 a Which colour flowers do insect pollinators visit most often? Or similar question.
b Observing over time

,2024-12-31 Using visual and context clues to recognize combinations of letters and their associated sounds Learning to read is one of life's most important skills and thus a crucial goal of the school curriculum Of the many strategies and tactics that help children become efficient readers no programs have proved more effective than those that include phonics Phonics helps students become independent readers by teaching them to sound out the new words they encounter Just knowing the name of each letter of the alphabet is not enough to attain this skill it is not enough to help them play the word in their heads It is important to know that vowels have long and short sounds that there are different ways of spelling a specific sound and that sometimes two consonants together create a whole new sound while in other combinations each consonant is sounded out separately The Phonics Practice Simplified program will help students develop and master these and other sound symbol relationships that are important building blocks for reading success **Teacher** ,1978 The American Contractor ,1928
