The Market Mind Hypothesis Patrick Schotanus, 2023-10-04 What is economics missing link Recent economic crises have had a devastating impact on society Worryingly they gravely risked a collapse of the financial system These crises also painfully revealed economics blind spots Crucially economics is not an innocent bystander but central to the problem In this pioneering book Patrick Schotanus explains that economics mechanical worldview is the ontological error which leads to flawed thinking and faulty practices The Market Mind Hypothesis MMH thus calls it mechanical economics it not only erroneously views but also dangerously treats the economy as a machine the market as an automaton and its agents as robots Inspired by heterodox economic and leading cognitive thinkers this book offers an alternative paradigm Central to MMH's psychophysical worldview is the fact that consumers investors and other participants are conscious beings and that their minds extension makes consciousness a reality in markets exemplified by market mood Specifically denial of the complex mind matter exchanges as the essence of markets means the extended mind body problem is economics elephant in the room The book argues that if mechanical economics is the answer we have been asking the wrong questions Moreover we will not solve our economic predicaments by doubling down on the assumption of rationality nor by identifying yet another behavioural bias Instead scholars and students of economics and finance as well as finance practitioners need to investigate through cognitive economics the deep links between markets and minds to better understand both With a foreword by investment strategist Russell Napier an intermezzo by neuroscientist and complexity pioneer Scott Kelso and an

Peter Herrmann,2025-06-12 This book questions the mainstream interpretation of the current political shifts as a move to ultra conservative and even fascist politics changing the politics of the Western democracies that can be overcome by reclaiming democracy Instead of following this path the present work analyses these developments as extreme consequence that emerged from the individualist and short sighted understanding of rationality that coined the enlightenment and had been translated into an institutionalist take on democracy Such view while accepting the common interpretation of a dramatic and extremely dangerous development goes further it emphasises the need to question the pathway of modernisation Looking at what is hidden by the eclipse of reason encourages also to look for a new societal model asking for a real public transcending current strives for publicity As such it is an important contribution to debates on precarity and a one sided understanding of Human Rights Scholars of political science and political philosophy will be interested in the work as it will be of interest for those who are engaging in ongoing political debates The Literary Digest Edward Jewitt
