

SonicWALL PRO 3060 and PRO 4060

INTERNET SECURITY APPLIANCES

- Powerful deep packet inspection firewall
- High-performance, multi-service network security platform
- Built redundancy, hardware failover and load balancing
- Comprehensive central management powered by award-winning SonicWALL Global Management System

Today's highly connected organizations move vast amounts of business-critical data across networks. For organizations, the value of this data is extraordinary – as is the need to move it quickly, reliably and securely in order to maintain and safeguard business continuity. These organizations must employ advanced features such as deep packet inspection technology, secure VPN access, highly reliable network continuity, powerful performance and flexible, scalable configurability.

The SonicWALL® PRO Series, featuring the PRO 3060 and PRO 4060, provides complete business continuity and multi-layered security for even the most complex networks. Powered by SonicWALL's next-generation SonicOS operating system and a dedicated, high-performance architecture, the PRO 3060 and PRO 4060 deliver enterprise-class firewall throughput and hardware-accelerated VPN concentration. Unbeatable price/performance characteristics make the PRO Series the ideal solution for companies that need rock-solid network protection coupled with fast, secure VPN access for even the most complex remote connectivity environments.

The PRO 3060 and PRO 4060 integrate SonicWALL's intrusion prevention technology, which features a configurable, ultra-high performance deep packet inspection firewall that delivers increased attack prevention capabilities over those supplied by traditional stateful packet inspection firewalls. This powerful combination protects users and critical network resources from the dynamic, sophisticated threats that put today's corporate networks at risk.

Standard on the PRO 4060 and an optional upgrade on the PRO 3060, SonicOS Enhanced delivers powerful business continuity and flexibility features including ISP failover, load balancing, hardware failover and policy-based NAT. Six configurable ISM/DOO Ethernet interfaces allow administrators to create multiple LANs, WANs, WLANs, DMZs and custom-defined zones. The PRO Series also integrates seamlessly with the SonicWALL suite of security services, including Intrusion Prevention Service, Content Filtering Service and gateway-embedded Complete Anti-Virus, for true multi-layered protection and productivity. Combined with an intuitive Web interface, the PRO 3060 and PRO 4060 are the ultimate choices for robust internal and external security, network configuration flexibility and ease-of-use.

The PRO Series can be easily managed remotely as part of a multi-firewall and VPN environment through a Web interface or using SonicWALL's industry-leading Global Management System (GMS). This gives network administrators a powerful set of tools for rapid deployment, configuration, and management of global security policies from a central location.

The SonicWALL PRO 3060 and PRO 4060 deliver the most powerful, flexible, cost-effective network security platform available, maximizing uptime, safeguarding vital network assets and infrastructures, and ensuring complete business continuity.

With industry-leading hardware VPN capabilities, the PRO 3060 and PRO 4060 support a complete enterprise-class security platform, and integrate with the SonicWALL security ecosystem. Please visit www.sonicwall.com or call 1-800-755-8600.
