Analysis

1. During 1906 and 1907, what two methods did the Forest Service use to protect the Kaibab deer?

Theodore Roosevelt created a national game reserve and they exterminated the predators of the Kaibab deer.

1. Why did you expect the population of deer to increase after 1907?

Because the predators of the deer were gone.

1. Why did you expect the population of deer to decline after 1924, although the extermination of predators occurred?

The deer were overpopulated and many of the deer starved because the population was too large.

1. Why did you think the deer population was in 1924 was 100,000 when the extermination of predators had occurred in 1907?

There was a population explosion. The deer were able to reproduce for the majority of the population.

1. Why did the deer population decline after 1924?

The population was too large. The population was growing too fast and there was no more space.
