Church and Worship Music James Michael Floyd, Avery T. Sharp, 2013-10-31 First Published in 2005 Routledge is an imprint of Taylor Francis an informa company **Church and Worship Music in the United States** James Michael Floyd, Avery T. Sharp, 2016-08-12 This fully updated second edition is a selective annotated bibliography of all relevant published resources relating to church and worship music in the United States Over the past decade there has been a growth of literature covering everything from traditional subject matter such as the organ works of J S Bach to newer areas of inquiry including folk hymnology women and African American composers music as a spiritual healer to the music of Mormon Shaker Moravian and other smaller sects With multiple indices this book will serve as an excellent tool for librarians researchers and scholars sorting through the massive amount of material in the field **Shout to the Lord** Ari Y. Kelman, 2018-06-19 How music makes worship and how worship makes music in Evangelical churches Music is a nearly universal feature of congregational worship in American churches Congregational singing is so ingrained in the experience of being at church that it is often misunderstood to be synonymous with worship For those who assume responsibility for making music for congregational use the relationship between music and worship is both promising and perilous promise in the power of musical style and collective singing to facilitate worship peril in the possibility that the experience of the music might eclipse the worship it was written to facilitate As a result those committed to making music for worship are constantly reminded of the paradox that they are writing songs for people who wish to express themselves as directly as possible to God This book shines a new light on how people who make music for worship also make worship from music Based on interviews with more than 75 songwriters worship leaders and music industry executives Shout to the Lord maps the social dimensions of sacred practice illuminating how the producers of worship music understand the role of songs as both vehicles for and practices of faith and identity This book accounts for the human qualities of religious experience and the practice of worship and it makes a compelling case for how sometimes faith comes by hearing *The 6 Marks of Progressive Christian Worship Music* Bryan J. Sirchio, 2012-08-30 Something about the lyrics of many of the hit contemporary Christian worship songs is at best problematic for many clergy persons in mainline denominations Sometimes the songs are downright offensive theologically to the pastor Often the problem is rooted in a theological nuance or doctrine that the pastor does not embrace Sometimes these contemporary worship songs use too many Christian buzz words or clichés or phrases that the pastor deliberately avoids in every other aspect of the liturgy Often the problem is that the new songs show no sensitivity at all to things like inclusive language or the theological challenges of doctrines like penal substitutionary atonement Sometimes the pastors feel that most of these new songs lack substance that they're too sugary too individualistic and too other worldly Sometimes there's an emotional tone to this contemporary worship music that might work well in another kind of church but which just doesn't feel authentic in a traditional or mainline congregation Now I would imagine that at least some of you

began to glaze over a bit as you attempted to read those last few paragraphs Or maybe you didnt fully understand some of the terms I just used If so dont worry thats why I wrote this book If you have no idea what things like penal substitutionary atonement or inclusive language are about this book will help you understand what these terms mean and why its important to your pastors for you to know your way around these issues and concepts a bit as you seek new songs to bring into the worship life of your congregation And I promise Ill do my best to use down to earth language that youll be able to easily understand without a seminary education

Music for Others Nathan Myrick,2021 Musical activity is one of the most ubiquitous and highly valued forms of social interaction in North America to say nothing of world over being engaged from sporting events to political rallies concerts to churches Moreover music s use as an affective agent for political and religious programs suggests that it has ethical significance Indeed many have said as much It is surprising then that music s ethical significance remains one of the most undertheorized aspects of both moral philosophy and music scholarship Music for Others Care Justice and Relational Ethics in Christian Music fills part of this scholarly gap by focusing on the religious aspects of musical activity particularly on the practices of Christian communities Based on ethnomusicological fieldwork at three Protestant churches and a group of seminary students studying in an immersion course at South by Southwest SXSW and synthesizing theories of discourse formation and care ethics oriented towards restorative justice it first argues that relationships are ontological for both human beings and musical activity It further argues that musical meaning and emotion converge in human bodies such that music participates in personal and communal identity construction in affective ways yet these constructions are not always just Thus considering these aspects of music s ways of being in the world Music for Others finally argues that music is ethical when it preserves people in and restores people to just relationships with each other and thereby with God

Worship and Power Sarah Kathleen Johnson,Andrew Wymer,2023-03-22 Christian worship emerges from and speaks back into human relationships that are necessarily shaped by power and authority Free Churches structure and negotiate power in relation to worship in ways that reflect the decentralization local diversity and personal agency that characterize many aspects of Free Church theology and practice This volume models how dialogue among scholars and practitioners of Free Church worship as well as dialogue with the wider church can be mutually enriching as Christians strive together to worship in ways that are faithful and just

Servanthood of Song Stanley R. McDaniel, 2024-05-23 *Servanthood of Song* is a history of American church music from the colonial era to the present Its focus is on the institutional and societal pressures that have shaped church song and have led us directly to where we are today The gulf which separates advocates of traditional and contemporary worship Black and White Protestant and Catholic is not new History repeatedly shows us that ministry to be effective must meet the needs of the entire worshipping community not just one segment age group or class *Servanthood of Song* provides a historical context for trends in contemporary worship in the United States and suggests that the current polemical divisions between advocates of contemporary and traditional classically oriented church music are both unnecessary and counterproductive It also draws from history to show that to be the powerful component of worship it can be music whatever the genre must be viewed as a ministry with training appropriate to that *Servanthood of Song* provides a critical resource for anyone considering a career in either musical or pastoral ministries in the American church as well as all who care passionately about vital and authentic worship for the church of today

When Religion Matters Annie Hardison-Moody, 2016-10-10 How does starting with women s statements that God was there in the moment of wartime violence shift the ways we think about religion conflict and healing Religion and health scholar Annie Hardison Moody examines this interdisciplinary question through several lenses postconflict feminist theory practical theology and feminist and womanist theory and theology Drawing on participatory fieldwork with a Liberian community in North Carolina Hardison Moody argues that religion matters for many survivors of violence and that this fact must be taken into account in international conversations about women violence and healing Consequently she looks beyond the institutional forms of religion instead studying the ways women live and profess healing and transformation as a part of their everyday lives This she argues is the crucial task for postconflict transformation work Understanding these everyday ways women experience and heal from violence is central to advancing our conceptions of healing and peace as they exist in a world rife with conflict Scholars activists and caregivers will be able to draw on this resource as they attempt to understand and practice healing and transformation with those who have experienced violence and trauma

Becoming What We Sing David Lemley, 2021-01-07 Contemporary worship music is ubiquitous in many Protestant Christian communities today Rather than debating or decrying this post worship wars reality David Lemley accepts it as a premise and examines what it means for us to be singing along with songs that aren t so different from the pop genre How do we cope with the consumerism embedded in the mentality that catchy is good How do we stay committed to subverting cultural norms as Christians are called to do when our music is modeled after those cultural norms How do we ensure that the way we participate in the liturgy of contemporary worship music rehearses a cruciform identity *Becoming What We Sing* draws on cultural criticism ethnomusicology and liturgical and sacramental theology to process the deluge of the contemporary in today s worship music Lemley probes the thought of historical figures such as Augustine Hildegard of Bingen Martin Luther and the Wesleys while also staying situated in the current moment by engaging with cultural philosophers such as James K A Smith and popular artists such as U2 The result is a thorough assessment of contemporary worship music s cultural economy that will guide readers toward greater consciousness of who we are becoming as we sing our way into selves societies and cosmic perspectives
