Sovereignty And Responsibility Power Norms And Intervention In International Relations:

Sovereignty and Responsibility J. Moses, 2014-11-18 This book is a critical study of the concept of sovereignty and its relationship to responsibility. It establishes a clear distinction between empirical and normative definitions of sovereignty and examines the implications of these concepts in relation to intervention, international law and the world state.

Sovereignty and Responsibility J. Moses, 2014-11-18 This book is a critical study of the concept of sovereignty and its relationship to responsibility. It establishes a clear distinction between empirical and normative definitions of sovereignty and examines the implications of these concepts in relation to intervention, international law and the world state.

Norm Contestation, Sovereignty and (Ir)responsibility at the International Criminal Court Emanuela Piccolo Koskimies, 2021-10-26 Grappling specifically with the norm of sovereignty as responsibility, the book seeks to advance a critical constructivist understanding of norm development in international society as opposed to the conventional or liberal constructivist mis understanding that still dominates the debate. Against this backdrop, the book delves into the institutionalization of sovereignty as responsibility within the lived practice of the International Criminal Court (ICC). More to the point, the proposed exploration intends to revive questions about the power laden nature of the normative fabric of international society, its dis symmetries and its outright hierarchies in order to devise an original framework to operationalize research on how institutional practice impinges on norm development. To this end, the book resorts to an original creole vocabulary which combines the contributions of post positivist constructivist scholars with the legacy of key post modernist thinkers such as Michel Foucault and Jacques Derrida as well as critical approaches to International Criminal Law and Post Colonial Studies. The book will appeal to scholars of international relations and international law in addition to critical scholars more broadly as well as to practitioners in the fields of human rights and international justice interested in normative theory and the implementation and contestation of international social norms.

Atrocity Crimes and International Law Stacey Henderson, 2022-10-31 Despite repeated declarations of never again in response to the commission of atrocities, civilians have continued to be targeted by their leaders and opposition groups. The international law principles of sovereignty and non intervention, when taken at their highest, require States to stand idle and not intervene in another State regardless of what atrocities may be occurring there. This traditional legal view is being challenged by an emerging practice of States choosing to respond in non forceful ways inspired by the concept of the Responsibility to Protect (R2P). Drawing on R2P, this book introduces and develops an original conceptual tool, intercession, to capture and explain this change in State practice and the impact of R2P on the development of international law. Through a close examination of State practice, the work explores whether there has been an expansion in the permissible measures and situations in which States can intervene without using force in response to atrocity crimes occurring in other States. This book concludes that the development of the secondary duty on the international community under R2P provides the greatest opportunity to progress the R2P framework in a meaningful way which will have a

significant impact on the protection of populations from atrocity crimes The book will be essential reading for students researchers and policymakers working in the areas of international law international relations humanitarian law and peace and security studies

Protecting Human Rights in the 21st Century Aidan Hehir,Robert W. Murray,2017-04-12 This book provides a comprehensive overview of the trajectory of international human rights protection in the 21st century

A Theory of De Facto States Lucas Knotter,2023-12-12 A Theory of De Facto States offers a new perspective on the phenomenon of de facto states political communities that manifest forms of statehood in international politics but lack international legal recognition zooming in on two prominent examples Somaliland and Kosovo Employing a thorough understanding of classical realist theories of international relations this book provides a fresh critique of the common ways in which existing research tends to identify the ostensible state features of these communities In contrast to the prevalent portrayals of such features in terms of international legal discursive and or everyday logics this book argues that de facto states can be most fundamentally characterised as exceptional polities in international relations Showcasing how the statehood and sovereignty of de facto states is based in international political crises this book concludes that these entities function as recurring disruptions of any supposed international political order A Theory of De Facto States will therefore be of interest to researchers of secession de facto statehood and International Relations theory alike

Introduction to Politics Robert Garner,Peter Ferdinand,Stephanie Lawson,2023 The only introductory textbook to bring together theory comparative politics and international relations to provide the most comprehensive and global introduction to politics available

Historical Dictionary of International Relations Peter Lamb,Fiona Robertson-Snape,2017-03-21 The Historical Dictionary of International Relations is a general guide to the theory and practice of the relations between states and between states and other actors on the world stage It introduces readers to the real world operations of international relations and is thus concerned with the actual relations between states organizations groups and people It also offers introductory information about the various theories old and new that help explain these relations why they happen and the possible alternatives that might be available now or in the future Moreover some of the key thinkers of these theories are discussed The Historical Dictionary of International Relations contains a chronology an introduction and an extensive bibliography The dictionary section has over 200 cross referenced entries on real world operations of international relations the actual relations between states organizations groups and people This book is an excellent resource for students researchers and anyone wanting to know more about International Relations

Global Politics Stephanie Lawson,2021 The most concise introduction to international relations covers all the essentials with learning features that link theories to the real world Global Politics is a concise and engaging introduction to international relations In it Stephanie Lawson introduces the key theories and concepts underpinning the discipline giving readers a foundation to study politics on both a personal and global scale including issues relating to gender sexuality and ethnicity as well as the economy environment and concepts

of justice The textbook presents theories in their historical context demonstrating how they can evolve over time Case studies both contemporary and historical and biographies of key figures help bring these issues to life Additional features such as key debates and summary questions provide opportunities to analyse issues from a range of perspectives

The End of American World Order Amitav Acharya, 2018-03-16 The age of Western hegemony is over Whether or not America itself declines or thrives under President Trump's leadership the post war liberal international order underpinned by US military economic and ideological primacy and supported by global institutions serving its power and purpose is coming to an end But what will take its place A Chinese world order A re-constituted form of American hegemony A regionalized system of global cooperation including major and emerging powers In this updated and extended edition of his widely acclaimed book Amitav Acharya offers an incisive answer to this fundamental question While the US will remain a major force in world affairs he argues that it has lost the ability to shape world order after its own interests and image As a result the US will be one of a number of anchors including emerging powers regional forces and a concert of the old and new powers shaping a new world order Rejecting labels such as multipolar apolar or G Zero Acharya likens the emerging system to a multiplex theatre offering a choice of plots ideas directors power and action leadership under one roof Finally he reflects on the policies that the US emerging powers and regional actors must pursue to promote stability in this decentred but interdependent multiplex world Written by a leading scholar of the international relations of the non-Western world and rising above partisan punditry this book represents a major contribution to debates over the post-American era

Sovereignty and the Responsibility to Protect Theresa Reinold, 2013 This book explores how the bedrock institution of today's global order sovereignty is undergoing transformation as a result of complex interactions between power and norms between politics and international law This book analyses a series of controversial military interventions into the internal affairs of irresponsible sovereigns and discusses their consequences for the rules on the use of force and the principle of sovereign equality Featuring case studies on Kosovo Darfur and Afghanistan It shows that frames from one discourse for example the debate over the responsibility to protect have been imported into other discourses on counter terrorism and nuclear non-proliferation in an attempt to legitimize a bold challenge to the global legal order Although the demise of sovereignty is widely debated this book instead seeks to deconstruct sovereignty by explaining how this institution has been reconstituted by global powers whose hegemonic law-making activities have popularized the notion of sovereignty as responsibility Drawing on international relations theory international law and sociology *Sovereignty and the Responsibility to Protect* develops a truly interdisciplinary perspective on the transformation of sovereignty and will be of strong interest to students and scholars in these fields

Selective Responsibility in the United Nations Katy Harsant, 2022-08-30 The United Nations claims to exist in order to maintain international peace and security providing a space within which all states can work together But why then does the UN invoke its responsibility to protect through humanitarian intervention in some instances but not others Why is it

that five states have the power to decide whether or not to intervene This book challenges the dominant narrative of the UN as an institution of equality and progress by analyzing the colonial origins of the organization and revealing the unequal power relations it has perpetuated Harsant argues that the United Nations is unable to fulfill its claims around the protection of international peace and security due to its very structure and the privilege of certain states Moreover through a rigorous examination of the history of the UN and how those structures came to be she argues that the privilege afforded to these states is the result of power relations established through the colonial encounter In order to understand the pressing contemporary issues of how the United Nations operates particularly the Security Council this book discusses issues of power and sovereignty by de silencing the narratives of resistance and reconstructing a history of the United Nations that takes this colonial and anti colonial relationship into account This is a bold challenge to the eurocentrism that dominates International Relations discourse and a call to better understand the colonialism s role in preserving the existing global order **The**

Routledge Handbook on Responsibility in International Relations Hannes Hansen-Magnusson,Antje Vetterlein,2021-07-29 What does responsibility mean in International Relations IR This handbook brings together cutting edge research on the critical debates about responsibility that are currently being undertaken in IR theory This handbook both reflects upon an emerging field based on an engagement in the most crucial theoretical debates and serves as a foundational text by showing how deeply a discussion of responsibility is embedded in broader questions of IR theory and practice Contributions cover the way in which responsibility is theorized across different approaches in IR and relevant neighboring disciplines and demonstrate how responsibility matters in different policy fields of global governance Chapters with an empirical focus zoom in on particular actor constellations of emerging states international organizations political movements or corporations or address how responsibility matters in structuring the politics of global commons such as oceans resources or the Internet Providing a comprehensive overview of IR scholarship on responsibility this accessible and interdisciplinary text will be a valuable resource for scholars and students in many fields including IR international law political theory global ethics science and technology area studies development studies business ethics and environmental and security governance **State Renaissance for Peace** Emmanuel H. D. De Groof,2020-08-27 After 1989 the function of

transitional governance changed It became a process whereby transitional authorities introduce a constitutional transformation on the basis of interim laws In spite of its domestic nature it also became an international project and one with formidable ambitions ending war conflict or crisis by reconfiguring the state order This model attracted international attention from the UN Security Council and several regional organisations and became a playing field of choice in international politics and diplomacy Also without recourse to armed force international actors could impact a state apparatus through state renaissance This book zooms in on the non forcible aspects of conflict related transitional governance while focusing on the transition itself This study shows that neither transitional actors nor external actors must respect specific

rules when realising or contributing to state renaissance The legal limits to indirectly provoking regime change are also being unveiled

International Relations as Politics among People Hannes Hansen-Magnusson,2019-11-25 Pioneering a hermeneutic methodology for analyses of global governance this is the first monograph that makes Hans Georg Gadamer's and Paul Ricoeur's hermeneutic philosophy relevant for global politics research Drawing on the concept of horizon as the element that captures the dynamics of understanding in social interaction in order to analyse processes of international politics this book shows that what is required is the embeddedness of meanings and ideas in human action and reflection By advancing theory building with regard to particular questions of global governance it reconceptualises international relations as politics among people Providing a contextualised constructivist approach that highlights the importance of processes to which people are central it challenges the use of collective concepts such as state and nation as units of analysis which continue to dominate international relations but which cloud the details of interaction processes The two case studies of UN Convention on the Law of the Sea and Germany in NATO's mission Operation Allied Force in Kosovo in 1999 are structured around this contextualised constructivist approach developed in the monograph The studies reveal how interaction processes can be made accountable leading to new vantage points of our understanding of governance problems This book will be of interest to scholars interested in global governance the work of Hans Georg Gadamer Paul Ricoeur and hermeneutic philosophy the UN humanitarian interventions and foreign policy analysts

Elgar Encyclopedia of International Relations Beate Jahn,Sebastian Schindler,2025-03-12 This Encyclopedia provides a comprehensive account of the theoretical and practical development of international relations Experts in the field examine the intellectual and political relevance of core concepts from liberalism and constructivism to war and conspiracy This title contains one or more Open Access chapters

Theorising the Responsibility to Protect Ramesh Chandra Thakur,Ramesh Thakur,William Maley,2015-07-30 This book relates the Responsibility to Protect to existing bodies of theory on the nature and foundations of political and international order

The Oxford Handbook of the Responsibility to Protect Alex Bellamy,Tim Dunne,2016-06-30 The Responsibility to Protect R2P is intended to provide an effective framework for responding to crimes of genocide ethnic cleansing war crimes and crimes against humanity It is a response to the many conscious shocking cases where atrocities on the worst scale have occurred even during the post 1945 period when the United Nations was built to save us all from the scourge of genocide The R2P concept accords to sovereign states and international institutions a responsibility to assist peoples who are at risk or experiencing the worst atrocities R2P maintains that collective action should be taken by members of the United Nations to prevent or halt such gross violations of basic human rights This Handbook containing contributions from leading theorists and practitioners including former foreign ministers and special advisors examines the progress that has been made in the last 10 years it also looks forward to likely developments in the next decade

Handbook on Global Constitutionalism Anthony F. Lang,Antje Wiener,2023-11-03 This thoroughly revised

Handbook presents an up to date political and philosophical history of global constitutionalism By exploring the constitutional like qualities of international affairs it provides key insight into the evolving world order **Norm**

Contestation Betsy Jose,2017-12-02 This Brief uses the theory of norm contestation as a model for understanding variation in norm related behavior in international relations While most typical approaches to understanding norms view norms as stable structures and actor responses to them as unquestioned in a global political climate where departures from expected behavior may occur a more nuanced model is needed By using a norm contestation framework that highlights norm fluidity and actor agency this book expands the discussion providing insight into divergent interpretations of norm violation and compliance and the dynamic nature of norms The first two chapters introduce the norm contestation model explain how it contributes to the literature on norm violations and discuss the reasons for the cases discussed Chapters Three and Four provide detailed case studies of the mechanisms of norm contestation as they apply to the civilian immunity and non intervention norms Chapter Five concludes by reconnecting the norm contestation model to the case studies and describing how it can be applied to norms other than those regulating armed conflict It also discusses policy implications and avenues for future research As such this book will appeal to students and researchers working broadly on issues related to international relations theory armed conflict security studies humanitarianism human rights international law and global governance It will also be of interest to policy makers and practitioners interested in influencing the normative behavior of actors in diverse arenas

Sovereignty And Responsibility Power Norms And Intervention In International Relations Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Sovereignty And Responsibility Power Norms And Intervention In International Relations free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply

need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading Sovereignty And Responsibility Power Norms And Intervention In International Relations free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading Sovereignty And Responsibility Power Norms And Intervention In International Relations free PDF files is convenient, it's important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but it's essential to be cautious and verify the authenticity of the source before downloading Sovereignty And Responsibility Power Norms And Intervention In International Relations. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether it's classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading Sovereignty And Responsibility Power Norms And Intervention In International Relations any PDF files. With these platforms, the world of PDF downloads is just a click away.

FAQs About Sovereignty And Responsibility Power Norms And Intervention In International Relations Books
