Dehn,Hans-Dieter Beushausen,Mark G Alexander,Pilate Moyo,2015-09-17 The Fourth International Conference on Concrete Repair, Rehabilitation and Retrofitting ICCRRR 2015 was held 5-7 October 2015 in Leipzig, Germany. This conference is a collaborative venture by researchers from the South African Research Programme in Concrete Materials based at the Universities of Cape Town and The Witwatersrand and the Material **Scientific and Technical Aerospace Reports**

,1990 Lists citations with abstracts for aerospace related reports obtained from world wide sources and announces documents that have recently been entered into the NASA Scientific and Technical Information Database *Glass Construction Manual* Christian Schittich,Gerald Staib,Dieter Balkow,Matthias Schuler,Werner Sobek,2012-12-10 Glass offers a wide variety of possible applications for the realization of even the most ambitious designs in architecture and in the past two decades it has experienced an unparalleled burst of innovation. For planners this means working constantly with this high performance material. In compact and appealing form the completely revised Glass Construction Manual presents the current state of the art on planning and building with glass from the history through the technical foundations all the way to the most innovative applications. Astonishing perspectives on thermal insulation and solar protection and the addition of thoughtfully selected new practical examples round off this comprehensive reference work. *Implementing Semantic Web Services* Dieter Fensel,Mick Kerrigan,Michal Zaremba,2008-09-16 Service oriented computing has become one of the predominant factors in IT research and development efforts over the last few years. In spite of several standardization efforts that advanced from research labs into industrial strength technologies and tools there is still much human effort required in the

process of finding and executing Web services Here Dieter Fensel and his team lay the foundation for understanding the Semantic Web Services infrastructure aimed at eliminating human intervention and thus allowing for seamless integration of information systems They focus on the currently most advanced SWS infrastructure namely SESA and related work such as the Web Services Execution Environment WSMX activities and the Semantic Execution Environment OASIS SEE TC standardization effort Their book is divided into four parts Part I provides an introduction to the field and its history covering basic Web technologies and the state of research and standardization in the Semantic Web field Part II presents the SESA architecture The authors detail its building blocks and show how they are consolidated into a coherent software architecture that can be used as a blueprint for implementation Part III gives more insight into middleware services describing the necessary conceptual functionality that is imposed on the architecture through the basic principles Each such functionality is realized using a number of so called middleware services Finally Part IV shows how the SESA architecture can be applied to real world scenarios and provides an overview of compatible and related systems The book targets professionals as well as academic and industrial researchers working on various aspects of semantic integration of distributed information systems They will learn how to apply the Semantic Web Services infrastructure to automate and semi automate tasks by using existing integration technologies In addition the book is also suitable for advanced graduate students enrolled in courses covering knowledge management the Semantic Web or integration of information systems as it will educate them about basic technologies for Semantic Web Services and general issues related to integration of information systems
