examples of BIAN's usage. As such, it should not only appeal to application and business architects but also to their managers, their business partners and other stakeholders who work closely with them. The first part of the book focuses on the theory, BIAN's organization, the principles and patterns on which its architecture is based and its building blocks. The second part of the book explains in methodology-independent terms how BIAN can be applied in different architectural layers by different disciplines in co-operation with architects. This part of the book includes a number of practical examples intended to improve the reader's understanding of the building blocks of the BIAN architecture and encourage them to apply it for the benefit of their own organization. The final part of the book should inspire the reader even further by clearly illustrating the synergy between the content that BIAN delivers and the architecture methodology provided by TOGAF.
