Field Manual for Oil Spills in Cold Climates Paul C. Deslauriers, Barbara J. Morson, Edwin J. C. Sobey, 1982

Design Engineering Manual Mike Tooley, 2009-10-30 Design Engineering Manual offers a practical guide to the key principles of design engineering. It features a compilation of extracts from several books within the range of Design Engineering books in the Elsevier collection. The book is organized into 11 sections. Beginning with a review of the processes of product development and design, the book goes on to describe systematic ways of choosing materials and processes. It details the properties of modern metallic alloys including commercial steels, cast irons, superalloys, titanium alloys, structural intermetallic compounds, and aluminum alloys. The book explains the human system interface procedures to assess the risks associated with job and task characteristics and environmental factors that may be encountered at work and affect behavior. Product liability and safety rules are discussed. The final section on design techniques introduces the design process from an inventor's perspective to a more formal model called total design. It also deals with the behavior of plastics that influence the application of practical and complex engineering equations and analysis in the design of products. Provides a single source of critical information to the design engineer, saving time and therefore money on a particular design project. Presents both the fundamentals and advanced topics and also the latest information in key aspects of the design process. Examines all aspects of the design process in one concise and accessible volume.

Racing Storm Mountain Trent Reedy, 2022-02-15 Trent Reedy returns to McCall, Idaho, in this thrilling new wintry companion to *Hunter's Choice*. Kelton Fielding has always felt out of place, never sure what to say to his peers who truth be told only tolerate him. When a snowmobile race is announced at McCall's annual Winter Festival, Kelton sees his chance to impress his classmates. He'll fix up his old sled and get it running, and he's planned out a risky shortcut through the wilderness that he's sure will win him the prize. But when the popular Swann Siddiq and Kelton's nemesis Hunter Higgins follow him into the backcountry, Kelton quickly runs into trouble and realizes that the competition is the least of his worries. With bad weather closing in and the risk of avalanche on the mountain, Kelton and the others find themselves in real danger, relying on their wits and teamwork to survive.
