With the release of the DSC RX100 II camera, Sony has built upon the success of the earlier RX100 model, adding a hot shoe, tilting LCD screen, Wi-Fi capability, upgraded digital sensor, and several other enhancements. White Knight Press, which published a widely praised guide to the RX100, has released this new guide book that addresses all of the new features of the RX100 II and includes a full discussion of the many advanced features that are common to both camera models. With the publication of *Photographer's Guide to the Sony DSC RX100 II*, author Alexander White provides users of the RX100 II with a guide to all operations, features, menus, and controls of the camera. Using a patient, tutorial-like approach, the book shows beginning and intermediate photographers not only how to accomplish things with the RX100 II but when and why to use the camera's many features. The book does not assume specialized knowledge by the reader as it explains topics such as autofocus, manual focus, depth of field, aperture priority, shutter priority, exposure compensation, white balance, and ISO sensitivity. The book includes full coverage of the new features of the RX100 II, including the use of the camera's built-in capability to transfer images and videos over a wireless network and to allow the camera to be controlled remotely by a smartphone or tablet. The book includes approximately 400 photographs, most in full color, which illustrate the camera's controls, shooting screens, and menus. The images also provide examples of the types of photographs that can be taken using the many creative settings of the camera, including the Photo Creativity settings which let the photographer alter the color processing of images, the Scene shooting mode with settings that are optimized for various subjects including landscapes, portraits, and action shots, the Creative Style and Picture Effect menu options which offer dramatic options for altering the appearance of images, and the camera's strong array of features for continuous shooting and shooting in dim lighting.
