Governing through Crime in South Africa Gail Super, 2016-04-22 This book deals with the historic transition to democracy in South Africa and its impact upon crime and punishment It examines how the problem of crime has emerged as a major issue to be governed in post apartheid South Africa Having undergone a dramatic transition from authoritarianism to democracy from a white minority to black majority government South Africa provides rich material on the role that political authority and challenges to it play in the construction of crime and criminality As such the study is about the socio cultural and political significance of crime and punishment in the context of a change of regime The work uses the South African case study to examine a question of wider interest namely the politics of punishment and race in neoliberalizing regimes It provides interesting and illuminating empirical material to the broader debate on crime control in post welfare

neoliberalizing post transition polities **Shadow Force** David Isenberg, 2008-12-30 From their limited use in China during World War II for example to their often clandestine use in Vietnam ferrying supplies before the war escalated in 1964 and 1965 when their role became more prominent and public private military contractors PMCs have played made essential contributions to the success and failures of the military and United States Today with an emphasis on force restructuring mandated by the Pentagon the role of PMCs and their impact on policy making decisions is at an all time peak This work analyzes that impact focusing specifically on PMCs in Iraq since the fall of Saddam Hussein in 2003 Isenberg dissects their responsibilities the friction that exists between contractors and military commanders problems of protocol and accountability as well as the problems of regulation and control that PMC companies create for domestic politics Isenberg organizes his

work thematically addressing all facets of PMCs in the current conflict from identifying who the most influential companies are and how they got to that point to the issues that the government military and contractors themselves face when they take the field He also analyzes the problem of command control and accountability It is no secret that PMCs have been the source of consternation and grief to American military commanders in the field As they work to establish more routine protocols in the field however questions are also being raised about the role of the contractors here at home The domestic political arena is perhaps the most crucial battleground on which the contractors must have success After all they make their corporate living off of taxpayer dollars and as such calls for regulation have resonated throughout Washington D C growing louder as the profile of PMCs increases during the current conflict

Office of Census and Statistics, 1921 **Police Work and Identity** Andrew Faull, 2017-09-07 This is a book about the men and women who police contemporary South Africa Drawing on rich original ethnographical data it considers how officers make sense of their jobs and how they find meaning in their duties It demonstrates that the dynamics that lead to police abuses and scandals in transitional and neo liberalising regimes such as South Africa can be traced to the day to day experiences and ambitions of the average police officer It is about the stories they tell themselves about themselves and their social worlds and how these shape the order they produce through their work By focusing on police officers this book positions the individual in primacy over the organisation asking what policing looks like when motivated by the pursuit of ontological security in precarious contexts It acknowledges but downplays the importance of police culture in determining officers attitudes and behaviour and reminds readers that most officers lives are entangled in and shaped by a range of social political and cultural forces It suggests that a job in the South African Police Service SAPS is primarily just that a job Most officers join the organisation after other dreams have slipped beyond reach their presence in the Service being almost accidental But once employed they re write their self narratives and enact carefully choreographed performances to ease managerial and public pressure and to rationalize their coercive practices In an era where evidence and what works reigns supreme and where cop culture is often deemed a primary socializing force this book emphasises how officers personal histories ambitions and vulnerabilities remain central to how policing unfolds on the street *Official Year Book of the Union and of Basutoland, Bechuanaland Protectorate and Swaziland* South Africa.
