Basque and Romance Ane Berro, Fernández Beatriz, Jon Ortiz de Urbina, 2019-05-07 This is a collection of articles describing and analyzing several of the most important morphosyntactic features for which the formal comparison between Basque and its surrounding Romance languages is relevant such as word order inflection case argument structure and causatives In the context of a language virtually all of whose speakers are bilingual in either Spanish or French the theoretically informed in depth description offered in this volume focuses on the fine grain of linguistic structures from languages typologically quite apart but coexisting and probably interacting in the minds of speakers It therefore aims at shedding some light on the types of interactions between different systems and on the systems themselves A Sociopolitical Agenda for TESOL Teacher Education Peter De Costa, Özgehan Ustuk, 2023-10-05 Teaching English to Speakers of Other Languages TESOL sits at the nexus of constant change which makes it vitally important for language teachers to engage in continuous development and keep abreast of the sociopolitical milieu in which they are embedded However most teacher education activities are often associated with what is perceived as best practices that are expected to be adopted often uncritically for classroom application and practice with the intention of training teachers to become technicians in their respective classrooms In reality TESOL practitioners often find themselves in situations that require them to be reflexive practitioners and to negotiate sites of political struggles and social injustice Given that a socially situated understanding of TESOL teacher education is often overlooked this volume highlights the sociopolitical dimensions of TESOL teacher education In Part 1 the authors introduce the theoretical underpinnings of the sociopolitical agenda proposed by this volume Building on these theories Part 2 realizes the proposed agenda by situating it within actual TESOL teacher education contexts that are characterized by power imbalances and neoliberally inflected educational injustices Natural Language Processing and Information Systems Rafael Munoz, Andres Montoyo, Elisabeth Metais, 2011-06-22 This book constitutes the refereed proceedings of the 16th International Conference on Applications of Natural Language to Information Systems held in Alicante Spain in June 2011 The 11 revised full papers and 11 revised short papers presented together with 23 poster papers 1 invited talk and 6 papers of the NLDB 2011 doctoral symposium were carefully reviewed and selected from 74 submissions The papers address all aspects of Natural Language Processing related areas and present current research on topics such as natural language in conceptual modeling NL interfaces for data base querying retrieval NL based integration of systems large scale online linguistic resources applications of computational linguistics in information systems

management of textual databases NL on data warehouses and data mining NLP applications as well as NL and ubiquitous computing **Proceedings of the Broadcast News Transcription and Understanding Workshop, February 8-11, 1998, Lansdowne Conference Resort, Lansdowne, Virginia** Denise E. M. Penrose, 1998 This workshop is a DARPA Speech Recognition and Natural Language Workshop **Applied Language Learning** ,2000 Initial Public Offerings (IPO) Greg N. Gregoriou, 2011-04-01 After the cooling off of IPOs since the dot com bubble Google has rekindled the fire for IPOs This IPO reader contains new articles exclusive to this reader by leading academics from around the world dealing with quantitative and qualitative analyses of this increasingly popular and important area of finance Articles address new methods of IPO performance international IPOs IPO evaluation IPO underwriting evaluation and bookbuilding Although numerous articles are technical in nature with econometric and statistical models particular attention has been directed towards the understanding and the applicability of the results as well as theoretical development in this area This reader will assist researchers academics and graduate students to further understand the latest research on IPOs Interest in IPOs is increasing again after the Google IPO and IPOs are up significantly from last year Chapters by well known academics provide an international perspective describing research results from IPO data in countries spanning the globe Research is based on real results from IPO data collected over the past 5 7 years *El-Hi Textbooks and Serials in Print* ,2006 **Artificial Intelligence Research and Development** Vicenç Torra, Isabel Aguiló, Manuel González-Hidalgo, 2019-10-15 Artificial intelligence has now become an indispensable tool at the centre of problem solving in a huge range of digital technologies and remains one of the most vibrant topics for discussion and research This book presents a compilation of the articles presented at the 22nd 2019 edition of the International Conference of the Catalan Association for Artificial Intelligence CCIA held in Mallorca Spain from 23 25 October 2019 This annual conference is an international event that serves as a meeting point for researchers into artificial intelligence based in the area of the Catalan speaking territories and for researchers from around the world The book is divided into 8 sections The first contains summaries of the 3 invited talks presented at the conference New methods for fusing information and the computational brain by Javier Fernandez From correlation to imagination Deep generative models for artificial intelligence by Joan Serr and Explainable AI by Anna Monreale The remaining 7 sections contain 47 papers covering ethics and E governance machine learning constraints and SAT optimization and fuzzy data science recommender systems and decision support systems agent based and multi agent systems computer vision and sentiment analysis and text analysis The book provides an overview of the latest developments in the field and as such will be of interest to all those whose work involves the study and application of artificial intelligence **Advances in Understanding Engineered Clay Barriers** Eduardo E. Alonso, Alberto Ledesma, 2005-06-23 The use of clay barriers for waste isolating purposes has gained increasing attention in the geotechnical engineering community Practical interest is linked to fundamental research which includes examination of the behaviour of compacted materials and expansive clays The

interaction between the barrier waste and the surrounding ground may involve several thermo hydro mechanical and chemical coupled processes that have been analyzed by means of in situ tests laboratory experiments and numerical modelling Large scale field tests have been developed in recent years by European Agencies dealing with the management of radioactive waste These experiments have provided an opportunity to calibrate and to validate research models and offer benefits in terms of experience of instrumentation and installation techniques The book includes about sixty papers presented in a symposium held in Spain in 2003 The four main topics of the book are field emplacement and instrumentation techniques fundamental research material behaviour i e bentonite and laboratory testing barrier behaviour and THM modelling and chemical effects HC and THMC modelling A Parametric Study of Language Training in the Peace Corps
