Matthew in 1831 originated the complete theory of evolution by natural selection in his book On Naval Timber and Arboriculture and did so before Charles Darwin and Alfred Wallace claimed to independently replicate it in 1858 Unjustly and against the Arago convention on priority a ruling that gives origination of any science theory to the first to publish Matthew has been illicitly denied his priority on the grounds he never influenced anyone with his breakthrough Today Big Data research has uncovered Darwin's science fraud by plagiarism revealing evidence which proves beyond all reasonable doubt that he and Alfred Wallace both independently plagiarised the theory of evolution by natural selection from Patrick Matthew Books have been newly unearthed in the publication record to show that at least 30 people cited Matthew's work in published literature before 1858 and that several were known influencers of Darwin's and Wallace's work in the field Additionally several people in Darwin's and Wallace's social circles were first to be second into print using original terms coined by Matthew in his bombshell breakthrough book This book reveals all the newly unearthed data and essentially explains it alongside the deplorable treatment of Patrick Matthew in scholarly historical context Dr Mike Sutton further reveals using social science participatory observation methods and experimental results how members of the so called Darwin Industry enabled and facilitated by the deliberate publication of falsehoods and other grossly misleading editing on Wikipedia have disgracefully worked to re bury these newly unearthed facts by means of knee jerk blind sight ignorant rejection blatant and deliberate fact denial censorship persistent and serious workplace harassment obscene social media abuse poison pen emails lies mischievous misrepresentation and repeat research plagiarism **Projects, Government, and**

Public Policy Stanisław Gasik, 2022-11-25 Many governments have effectively organized public project implementation systems in their jurisdictions At the same time many other countries remain at a less advanced level of public project management Globally there is a need for project management knowledge to be transferred between governments However no systematic review of these practices has been developed to date Projects Government and Public Policy was written to fulfill this need and presents a review of project management practices in countries with developed project based capabilities This book uses its own rigorous model to present this review systematically This book's practical purpose is to give a

structured overview of government level project management practices This knowledge can be used in the work of governments to improve the management of public projects and the implementation of public policies Many professionals working in public institutions understand project management concepts differently than project management professionals Therefore this book begins with a chapter that describes the differences between the conceptual basis of public administration and project management The body of this book has five parts Part I is mainly intended for those involved in government and public administration who want to acquire or increase knowledge about project management Part II provides an overview of the basic concepts from the theory of public administration public policies and development management Part III describes what makes public projects unique and the success factors specific to projects of this sector Knowledge about effective government project management practices is covered in Part IV The concluding Part V begins with a general overview of the maturity model concept Its main part covers the description of a maturity model showing ways to systematically improve the implementation of public projects This book is written for governments and government administrators including the most influential decision makers who craft policies to guide a country s development as well as how to implement projects This book is also intended for supporters and enthusiasts of project management in government and public administration by providing them with a description of the solutions used by project management in public administration This book is intended too for all project management practitioners working for public projects project managers team members sponsors and middle level executives of project delivering private companies By knowing public administration concepts they can manage their projects better and use a common language with their clients
