The Temptation of Non-Being Artemy Magun, 2024-05-02 Why do we enjoy artworks that depict disasters and suffering? Is this a hangover from the Modernist impulse to break the rules of harmony? Is there actually a proper way to perform negativity in art without resorting to nihilism? *The Temptation of Non-Being* uses these fundamental questions to paint a picture of contemporary art as beset by an outbreak of the negative and to construct a new theory of art as a medium of complex negativity. The negative in art is explained not as a simple negation or destruction but as a multifaceted polymorphous structure with a vast range of strategies and techniques from parody and pastiche to defamiliarization and non-resemblance. Charting the depth of these negative practices, Artemy Magun shows how they become progressively more complex and explicit, illustrating them with interdisciplinary examples from Lars von Trier, Jacek Malczewski, Andrei Platonov, and Fyodor Dostoyevsky. At the heart of this layered, nested structure lies an understanding of Modern aesthetics that helps to answer even more questions: how can the testing, probing nature of art lead to this preoccupation with the negative? Why does this negativity emerge in the first place? What can it tell us about art itself and how it functions in society? This is an erudite and provocative analysis that enriches the ongoing evaluation of both high and low art.

Detective Fiction for Young Readers Chris McGee, 2024-09-18 Detective Fiction for Young Readers is an examination of contemporary mystery stories for children and young adults. This volume explores how the conventions, rules, and expectations of adult mystery fiction have filtered down so to speak, especially in the past several decades, to writing for younger readers. The book is organized into three sections that explore the whodunit, the hardboiled, and the metaphysical styles of mystery fiction. Furthermore, this text analyzes how each style has been adapted for a younger audience, acknowledging and exploring representative novels most in keeping with that style. This volume is ideal for students, academics, and readers interested in children's mystery fiction that adheres to formulas made popular after the golden age of classic detective fiction.

Novel Ventures Leah Orr, 2017-10-16 The eighteenth-century British book trade marks the beginning of the literary marketplace as we know it. The lapsing of the Licensing Act in 1695 brought an end to pre-publication censorship of printed texts and restrictions on the number of printers and presses in Britain. Resisting the standard rise of the novel paradigm, *Novel Ventures* incorporates new research about the fiction marketplace to illuminate early fiction as an eighteenth-century reader or writer might have seen it. Through a consideration of all 475 works of fiction printed over the four decades from 1690 to 1730, including new texts, translations of foreign works, and reprints of older fiction, Leah Orr shows that the genre was much more diverse and innovative in this period than is usually thought. Contextual chapters examine topics such as the portrayal of early fiction in

literary history the canonization of fiction concepts of fiction genres printers and booksellers the prices and physical manufacture of books and advertising strategies to give a more complex picture of the genre in the print culture world of the early eighteenth century Ultimately *Novel Ventures* concludes that publishers had far more influence over what was written printed and read than authors did and that they shaped the development of English fiction at a crucial moment in its literary history
