The 21st Century Workforce :. United States. Congress. House. Committee on Education and the Workforce. Subcommittee on Workforce Protections,2016 *Putting Skill to Work* Nichola Lowe,2023-05-09 An argument for reimagining skill in a way that can extend economic opportunity to workers at the bottom of the labor market The United States has a jobs problem not enough well paying jobs to go around and not enough clear pathways leading to them Skill development is critical for addressing this employment crisis but there are many unresolved questions about who has skill how it is attained and whose responsibility it is to build skills over time In this book Nichola Lowe tells the stories of pioneering workforce intermediaries nonprofits unions community colleges that harness this ambiguity around skill to extend economic opportunity to workers at the bottom of the labor market Skill development confers shared value to both workers and employers because it lies at the intersection of their respective interests Connecting skill to economic inequality Lowe calls for solutions that push employers to accept greater responsibility for skill development She examines real world examples of workplace intermediaries throughout the United States exploring in detail the work of manufacturing focused organizations in Chicago and Milwaukee and a network of community colleges in North Carolina that coordinates training for biopharmaceutical manufacturers As workforce intermediaries help employers reinterpret skill they also convince them to implement inclusive work based systems that extend family sustaining wages and better working conditions across the entire workforce With renewed policy emphasis on skill development these opportunity rich solutions can be further expanded ensuring workers across the entire educational spectrum contribute skills that drive innovation forward and share the gains they generate for the twenty first century workplace
