Working With Portuguese Corpora:

Working with Portuguese Corpora Tony Berber Sardinha, Telma de Lurdes São Bento Ferreira, 2014-04-10 Although Portuguese is one of the main world languages and researchers have been working on Portuguese electronic text collections for decades e.g. Kelly 1970 Biderman 1978 Bacelar do Nascimento et al 1984 see Berber Sardinha 2005 this is the first volume in English that encapsulates the exciting and cutting edge corpus linguistic work being done with Portuguese language corpora on different continents The book includes chapters by leading corpus linguists dealing with Portuguese corpora across the world and their contributions explore various methods and how they are applicable to a wide range of language issues The book is divided into six sections each covering a key issue in Corpus Linguistics lexis and grammar lexicography language teaching and terminology translation corpus building and sharing and parsing and annotation Together these sections present the reader with a broad picture of the field

Linguistic Corpora and Big Data in Spanish and Portuguese Miguel Calderón Campos, Gael Vaamonde, 2024-10-21 In recent decades corpus linguistics has experienced tremendous development in the Hispanic world along two opposite but complementary approaches increase in corpus size corpus linguistics as Big Data and improvement in document selection and data annotation corpus linguistics as High Quality Data The first approach has led to the creation of massive corpora such as EsTenTen at the same time it has promoted the use of the web and social networks as corpora The second perspective gives rise to specialized corpora such as Post Scriptum or Oralía Diacrónica del español ODE The contributions gathered in this volume combine both methods in order to exploit their advantages and to overcome their possible limitations On the one hand it addresses the creation and design of small corpora focused on data quality on the other hand it offers case studies that make use of both specialized corpora and massive data extracted from the web Highlighting the complementary nature of both methods is the main idea of this book

Multi-Dimensional Analysis, 25 years on Tony Berber Sardinha, Marcia Veirano Pinto, 2014-07-15 Approximately a quarter of a century ago the Multi Dimensional MD approach one of the most powerful and controversial methods in Corpus Linguistics saw its first book length treatment In its eleven chapters this volume presents all new contributions covering a wide range of written and spoken registers such as movies music magazine texts student writing social media letters to the editor and reports in different languages English Spanish Portuguese and contexts engineering journalism the classroom the entertainment industry the Internet etc The book also includes a personal account of the development of the method by its creator Doug Biber an introduction to MD statistics as well as an application of MD analysis to corpus design The book should be essential reading to anyone with an interest in how texts genres and registers are used in society what their lexis and grammar look like and how they are interrelated
