Silk Road to Belt Road Md. Nazrul Islam, 2018-11-30

This volume approaches China's Belt and Road Initiative as a process of culturalization one that started with the Silk Road and continued over the millennium. In mainstream literature the Belt and Road Initiative BRI has been portrayed as the geo-economic vision and geo-political ambition of China's current leaders intended to shape the future of the world. However, this volume argues that although geo-politics and geo-economy may play their part, the BRI more importantly creates a venue for the meeting of cultures by promoting people-to-people interaction and exchange. This volume explores the journey from the Silk Road to Belt Road by analyzing topics ranging from history to religion, from language to culture and from environment to health. As such, scholars, academics, researchers, undergraduate and graduate students from the Humanities, Social Sciences, and Business will find an alternative approach to the Belt and Road Initiative.

Wood is Good

Krishna K. Pandey, V. Ramakantha, Shakti S. Chauhan, A.N. Arun Kumar, 2017-01-20. This book is a compilation of selected papers presented in the International Conference on the theme Wood is Good: Current Trends and Future Prospects in Wood. The contents of the book deal with recent innovations, trends, and challenges in wood science and are grouped in five distinct sections. They cover a wide range of topics like wood variability, processing and utilization, wood protection, wood-based composites, wood energy, and the role of wood in mitigating climate change. With the ever-increasing human population and growing demand for wood, this book offers valuable insights for better understanding and efficient utilization of this wonderful gift of nature. This book will be useful to researchers, professionals, and policy makers involved in forestry and wood-related areas.
