Torlone,2018-09-13 This is the first volume to offer a critical overview of the long and complicated history of translations of Virgil from the early modern period to the present day transcending traditional studies of single translations or particular national traditions in isolation to offer an insightful comparative perspective The twenty nine essays in the collection cover numerous European languages from English French and German to Greek Irish Italian Norwegian Slovenian and Spanish but also look well beyond Europe to include discussion of Brazilian Chinese Esperanto Russian and Turkish translations of Virgil While the opening two contributions lay down a broad theoretical and comparative framework the majority conduct comparisons within a particular language and combine detailed case studies with in depth contextualization and theoretical background showing how the translations discussed are embedded in their own cultures and historical moments The final two essays are written from the perspective of contemporary translators closing out the volume with a profound assessment not only of the influence exerted by the major Roman poet on later literature but also why translation of a canonical author such as Virgil matters not only as a national and transnational cultural phenomenon but as a personal engagement with a literature of enduring power and relevance *New dictionary, English and French and French and English* Louis

International Intellectual Property Disputes Thomas D. Halket,2012-05-01 The Arbitration of International Intellectual Property Disputes which is designed not only for arbitration counsel and arbitrators but also for in house counsel and transactional lawyers provides a thorough guide to the use of arbitration to resolve these disputes Both practical as well as scholarly it starts by exploring how and why arbitration can provide the best way to resolve these disputes and how to draft an effective arbitration provision It then covers the principal unique issues which can arise in the arbitration itself from choosing the tribunal through confidentiality discovery validity determinations choice of law provisional and final remedies and enforceability With the world more and more dependent upon technology of all types the continued and growing importance of intellectual property cannot be understated There has been and will continue to be an accompanying explosion in the number and complexity of transactions in which intellectual property is a critical if not the critical element Many of

these transactions cross national boundaries as do the disputes which inevitably arise from them But international intellectual property disputes present complexities not encountered in either intellectual property disputes which are confined to one country or other international commercial disputes The Arbitration of International Intellectual Property Disputes will serve as a handy reference and guide for navigating through the complex maze of intellectual property and arbitration Medical Examiner ,1876 La vie et les oeuvres de Jean-Baptiste Pigalle, sculpteur Prosper Tarbé,1859
