forum would aid in the rapid dissemination of new ideas technologies and solutions as well as explore new areas of research This book forms the Proceedings of the 2 Symposium on Connections between Steel and Concrete As the 1 Symposium in 2001 it brought together leading experts from all facets of the research design construction and anchor manufacturing community from around the world Their lectures covered the topics test methods behavior and design dynamic loading shock earthquake fatigue durability exceptional applications strengthening and structures related topics In total 129 papers are gathered in these 2 volumes

The Law and Economics of Article 102 TFEU Robert O'Donoghue KC, Jorge Padilla, 2014-07-18 The Law and Economics of Article 102 TFEU is a comprehensive integrated treatment of the legal and economic principles that underpin the application of Article 102 TFEU to the behaviour of dominant firms Traditional concerns of monopoly behaviour such as predatory pricing refusals to deal excessive pricing tying and bundling discount practices and unlawful discrimination are treated in detail through a review of the applicable economic principles the case law and decisional practice and more recent economic and legal writings In addition the major constituent elements of Article 102 TFEU such as market definition dominance effect on trade and applicable remedies are considered at length Jointly authored by a lawyer and an economist The Law and Economics of Article 102 TFEU contains an integrated approach to the legal and economic principles that frame policy in this major area of competition law Although written primarily with practitioners and in house lawyers in mind it is essential reading for anyone with an interest in competition law enforcement against monopoly behaviour
