[The Story of Utopias: Ideal Commonwealth and Social Myths](#) Lewis Mumford, 2020-09-28 It is a sunny day and I am sitting on the top of a mountain. Until this morning it had been the mountain of a fairy story that was twenty centuries old. Now it is a mighty hill and I can feel its warm coat of white reindeer moss, and if I were willing to stretch out my hand I could pluck the red berries that are in full bloom. A hundred years from now it will be gone. For it is really a large chunk of pure iron dumped by a playful Providence in the very heart of Lapland. Do you remember an old tale of Norse mythology? How somewhere far in the north there stood a high peak of iron which was a hundred miles high and a hundred miles wide. And how a little bird came to it once every thousand years to sharpen its beak. And how when the mountain was gone a single second of all eternity would have passed by. I heard it told as a child. I remembered it always, and I told it to my own boys when they began to learn history. It seemed the invention of some prehistoric Hans Christian Andersen. It belonged to the imaginary scenery of our dreams. The story has come true, and I have found my old mountain where I least expected it. To make the cycle of coincidence perfect, this hill was named after a bird. The Lapp with a fine sense of sound called the ptarmigan. Kiru Kirunavaara no longer hears the shrill kiru kiru of rising birds. Twice a day it listens to the terrific detonation of half a hundred charges of dynamite. Then it is shaken by the little trains which carry the rock to the valley. In the evening it

sees the lights of the large electric engines which hoist the valuable metal across the arctic wilderness of Lake Tornotrask Two months later the ore has been melted and worked into those modern articles of trade which go by the name of bridges and automobiles and ships and apartment houses and a thousand other things which once promised to elevate man from the ranks of the beasts of burden What has become of that promise the survivors of the last eight years know with great if gruesome accuracy Even the humble Lapp has heard of the great upheaval and has asked why the white people should kill each other when the whole world was full of reindeer and when God has given us the hills and the plains so that forever there should be food enough for the long days of summer and the longer nights of the endless winter *Yale Studies in English*

instability of literary and social categories Between 1600 and 1740 momentous changes took place in European attitudes toward truth in narrative and toward virtue in the individual and the social order The novel emerged McKeon contends as a cultural instrument designed to engage the epistemological and social crises of the age This book is a formidable attempt to articulate issues of almost imponderable centrality for modern life and literature McKeon proposes with quite breathtaking ambition and considerable intellectual flourish to redefine the novel's key role in those immense cultural transformations that produce the modern world *Studies in the Novel* A magisterial work of history and analysis *Arts and Letters* A powerful and solid work that will dominate discussion of its subject for a long time to come *The New York Review of Books*
