Ramose's Brother May and his Wife, Wenefer
Tomb of Ramose, Thebes (Egypt)
Limestone relief sculpture
New Kingdom
Eighteenth Dynasty, c. 1375-1365 BCE

Confident and serene, an elegant young couple sits side by side in this portrayal from an ancient Egyptian tomb dating from the Eighteenth Dynasty, c. 1375-1365 BCE. In this relief sculpture, the woman sits slightly behind her husband with her arm lovingly around his shoulder; he has his right hand extended as if to clasp the hand of a dear one. Both figures hold lotus blossoms, he a spray and she a single stem, perhaps signifying rebirth into the afterlife for the deceased. Although unpainted, the play of light and dark upon the stone clearly shows the intricately detailed carving of the work and a high degree of technical refinement. The composition also includes hieroglyphic symbols that may be meant to tell something about the lives of these figures. Both husband and wife display braided hair, sheer linen clothing, and elaborate jewelry. With slender waists, smooth faces and thickly outlined eyes, they sit united together, eternally paying homage to the dearly departed. The couple portrays a youthful vitality that speaks to the viewer across thousands of years.

Teacher Notes

You may wish to ask your students to:

- Compose their paragraph double-spaced, using 12-point Times Roman or Arial font.
- Peer-edit one another's first draft using standard proofreaders' marks, then revise before turning in their papers to you.
- Include a few questions that their analysis prompts. What else might they want to learn about this work? What would they want to explore in a hypothetical future research paper?
