- The system is, however, **NOT** (arguably) **stable** in the sense that some states cannot be reached (e.g., if `isatty(2)` does not exist, `system(2)` will not work).

Background: The prevalence of mental health problems in the general population is high, and the impact on the individual and society is substantial. However, the majority of people with mental health problems do not receive the care and support they need. This is due to a number of factors, including a lack of awareness, stigma, and limited resources. This paper aims to explore the barriers to mental health care and to identify strategies to improve access and outcomes.

- **How to calculate:**
 - When the cost exceeds the combined income (or savings) of both parties: NO payment transfer (divorce granted)
