

Z10 Integrated User Guide

WARNING: For safety, the cover of this amplifier should be secured at all times. DC voltages as high as 450V and peak AC voltages as high as 800V are present inside. The service information contained in this manual is intended only for trained service personnel.

The Linear Tube Audio Z10 Integrated, or Z10i, is a full size and function, high quality, Class AB integrated preamplifier, headphone and speaker amplifier utilizing ZOTL (Zero-hysteresis Output Transformer-Less) technology. There are 5 inputs (4 single ended RCAs and 1 XLR Balanced), 2 preamplifier outputs, a remote control and front panel controls, and a front panel dimmable LED display. There will be an optional phono preamp in the future.

Rear Panel Connections:

Power In: The unit operates in both 115V 60hz and 220-240V 50Hz, but has to be configured at the factory. The unit should be wired for your country when you receive your unit from the factory.

Inputs: There are 5 inputs to the Z10 Integrated. Four are single ended RCA stereo pairs. One is a true balanced dual XLR stereo pair. Connect your DAC, CD player, Phono Preamp or other line level device to these inputs.

Tape Monitor In and Out: Whatever Input (1 thru 5) is selected is always present at the Tape Out connector. This is true even when listening to the Tape In. The Tape Monitor switch selects whatever is being sent to the Tape In connector. This is typically a Tape Recorder playback output, but can be used with any device's line level output.
