Tutor Ninni Singh, Vinit Kumar Gunjan, Jacek M. Zurada, 2022-09-17 This book illustrates the design development and evaluation of personalized intelligent tutoring systems that emulate human cognitive intelligence by incorporating artificial intelligence Artificial intelligence is an advanced field of research It is particularly used in the field of education to increase the effectiveness of teaching and learning techniques With the advancement of internet technology there is a rapid growth in web based distance learning modality This mode of learning is better known as the e learning system These systems present low intelligence because they offer a pre identified learning frame to their learners The advantage of these systems is to offer to learn anytime and anyplace without putting emphasis on a learner's needs competency level and previous knowledge Every learner has different grasping levels previous knowledge and preferred mode of learning and hence the learning

process of one individual may significantly vary from other individuals This book provides a complete reference for students researchers and industry practitioners interested in keeping abreast of recent advancements in this field It encompasses cognitive intelligence and artificial intelligence which are very important for deriving a roadmap for future research on intelligent systems
