, **La France** Claude Rivière,1919 **Histoire de Laurent Marcel, Ou L'observateur Sans Préjugés** Jean Bardou,1779 **Practical Horsemanship in Medieval Arthurian Romance** Anastasija Ropa,2019-12-31 The figure of a knight on horseback is the emblem of medieval chivalry Much has been written on the ideology and practicalities of knighthood as portrayed in medieval romance especially Arthurian romance and it is surprising that so little attention was hitherto granted to the knight s closest companion the horse This study examines the horse as a social indicator as the knight s animal alter ego in his spiritual peregrinations and earthly adventures the ups and downs of chivalric adventure as well as the relations between the lady and her palfrey in romance Both medieval authors and their audiences knew more about the symbolism and practice of horsemanship than most readers do today By providing the background to the descriptions of horses and horsemanship in Arthurian romance this study deepens the readers appreciation of these texts At the same time critical reading of romance supplies information about the ideology and daily practice of horsemanship in the Middle Ages that is otherwise impossible to obtain from other sources be it archaeology chronicles or administrative documentation
