Research Anthology on Bilingual and Multilingual Education Management Association, Information Resources, 2021-10-29 Given the boost in global immigration and migration as well as the emphasis on creating inclusive classrooms research is turning to the challenges that teachers face with the increasing need for bilingual and multilingual education The benefits of bilingual education are widespread

allowing students to develop important cognitive skills such as critical thinking and problem solving as well as opening further career opportunities later in life. However, very few resources are available for the successful practice and implementation of this education into the curriculum with an even greater lack of appropriate cultural representation in the classroom. Thus, it is essential for educators to remain knowledgeable on the emerging strategies and procedures available for making bilingual and multilingual education successful. The Research Anthology on Bilingual and Multilingual Education is a comprehensive reference source on bilingual and multilingual education that offers the latest insights on education strategy and considerations on the language learners themselves. This research anthology features a diverse collection of authors offering valuable global perspectives on multilingual education. Covering topics such as gamification, learning processes, and teaching models, this anthology serves as an essential resource for professors, teachers, pre-service teachers, faculty of K-12 and higher education, government officials, policymakers, researchers, and academicians with an interest in key strategy and understanding of bilingual and multilingual education.

Multicultural Awareness and Technology in Higher Education: Global Perspectives Issa, Tomayess, Isaias, Pedro, Kommers, Piet, 2014-03-31. Diversity among university students plays a significant role in raising awareness of numerous issues surrounding cultural heritage, language differences, cross-cultural collaboration, and international education. The integration of technological tools can assist students in cooperating nationally and internationally both in their current educational and future professional settings. *Multicultural Awareness and Technology in Higher Education: Global Perspectives* encompasses the latest research on the impact and integration of technology into international education and culturally diverse learning environments. Providing the latest teaching and learning methods, technologies, and approaches at the university level, this publication is a useful reference for academics, educational administrators in public and private institutions, and information society researchers.

Virtual Learning Environments: Concepts, Methodologies, Tools and Applications Management Association, Information Resources, 2012-01-31. As the world rapidly moves online, sectors from management, industry, government, and education have broadly begun to virtualize the way people interact and learn. *Virtual Learning Environments: Concepts, Methodologies, Tools and Applications* is a three-volume compendium of the latest research, case studies, theories, and methodologies within the field of virtual learning environments. As networks get faster, cheaper, safer, and more reliable, their applications grow at a rate that makes it difficult for the typical practitioner to keep abreast. With a wide range of subjects spanning from authors across the globe and with applications at different levels of education and higher learning, this reference guide serves academics and practitioners alike, indexed and categorized easily for study and application.

A Collection of Dreams about the Future of Technology Education, 2025-01-27. Aside from celebrating the work of Marc J. de Vries, this book also highlights the need for further work, effort, and energy to improve learning about technology. It is a collection of essays written by experts from the philosophy of technology and education. They have written about their perspectives on how a future education about technology must

better relate to the technologically textured world we now inhabit a world in which the continuing exponential evolution of technology is affecting virtually every aspect of our lives This book serves as a clarion call to all those responsible for school based education Contributors are Piet Ankwicz Frank Banks Moshe Barak Hilda Ruth Beaumont Dennis Cheek Osnat Dagan John R Dakers Wendy Dakers Marc J de Vries Christian Detweiler Andrew Doyle Wendy Fox Turnbull Lena Gumaelius Jonas Hallstr m Alison Hardy Eva Hartell Pasi Ikonen Henk Jochensen Alister Jones Hanna Kauppinen Steve Keirl Richard Kimbell Dov Kipperman Roel Kuiper Mike Martin David Mioduser Carl Mitcham Sonja Niiranen Charlotta Nordl f Aki Rasinen Philip A Reed Timo Rissanen John M Ritz Marion Rutland Elwin Savelsbergh Alice Schut David Spendlove Kay Stables Kendall N Starkweather Maarten van der Sanden Gerald van Dijk and Maarten J Verkerk

The Cognitive Enrichment Advantage Teacher Handbook Katherine H. Greenberg,2005 The Cognitive Enrichment Advantage Teacher Handbook provides a theoretical framework teachers can use to help their students learn how to learn It builds upon an open and safe classroom atmosphere where students are encouraged to focus on the process of learning at least as much as the product The Handbook explains how teacher mediators employ guided discovery to help students socially construct a shared vocabulary as they focus on developing personal learning strategies The approach is based upon theory and research showing how cognitive enrichment can help develop flexibility in thinking This flexibility together with an understanding how feelings and motivation influence learning can help every student become a more effective life long independent and interdependent learner The approach has been used most often with marginalized students from preschool through adults in more than six countries *Computer-Assisted Language Learning: Concepts, Methodologies, Tools, and Applications* Management Association, Information Resources,2019-01-04 In a diverse society the ability to cross communication barriers is critical to the success of any individual personally professionally and academically With the constant acceleration of course programs and technology educators are continually being challenged to develop and implement creative methods for engaging English speaking and non English speaking learners Computer Assisted Language Learning Concepts Methodologies Tools and Applications is a vital reference source that examines the relationship between language education and technology and the potential for curriculum enhancements through the use of mobile technologies flipped instruction and language learning software This multi volume book is geared toward educators researchers academics linguists and upper level students seeking relevant research on the improvement of language education through the use of technology
