This book provides a comprehensive pragmatic guide to the Client relationship journey from identifying potential Clients to their engagement, care, retention, development, loyalty and beyond. The book also includes insights from top practitioners, anecdotes, case studies, charts and useful exercises and checklists. Readers can also determine their own level of effectiveness using the end of chapter reviews and a diagnostic tool to produce a Client Management Profile.

International Business Oded Shenkar, Yadong Luo, 2008. Written by two leading international business scholars, the Second Edition of International Business takes a truly global perspective that goes beyond the United States, presents the latest concepts, tools and events, and adopts integrated and problem solving approaches for all chapters. The book highlights the role of culture, politics and legal issues in international business and illustrates how they influence institutions, structures and processes that permeate all functions of business. This is the only international business textbook that offers dedicated discussion of small and mid size international firms where many students are likely to be employed, in addition to large multinational enterprises. It is also the only text to offer chapters on corruption, e commerce and international entrepreneurship. The book offers a highly integrated and action focused approach to the field that helps the reader make explicit connections across concepts and functions, develops the skill to address various IB issues and problems and most importantly broadens understanding of the global business environment and its repercussions for executives. In addition to superior internal integration of the various issues discussed in the book, for example, this may be the only IB text where the chapter on finance and accounting has specific references to culture and how it affects those functions. The book provides easy to understand links to functional business areas, thus enabling better integration within the BA or MBA business curriculum. This book is suitable for both undergraduate and graduate business students taking such courses as international business, international Management, Global Business, Global Business Strategy, Multinational Management, Foreign Direct Investment.
