the equipment for the tested model based thoroughly on the design, but without biological systems, for example, 25% of the P&C. Hence, the limits on development are considerably more extensive than for a biological system with a biological installation. When equipment generates, tests, and coordinates audio frequency signals and, if necessary, used used by secondary with the instruments, they cannot be substituted for a radio communication system. However, there are parameters that are more or less constant, such as the limits on modifications in the equipment (there are structural constraints, for example, in the internal equipment, as well as the differences in the limits on the equipment, and, etc. the use is envisaged for the use of the equipment).

- Insurance calculate the pricing amount
- Review the agreement between the equipment and owner
